#### Corn Sells For 4 Cents Per Bushel

Grain Belt Farmers Facing Bankruptcy as Grains Overloaded

CHICAGO, Oct. 28.—(UP)—Mountains of wheat and corn bulged in the granaries of America today ready for export at any price or to be burned as fuel in many areas.

Prices were a little steadier in the great grain exchanges today in reaction to a flood of buying from countries anxious to buy their breadstuffs at the bargain counter quotations.

But the terrific competition of nations with 1,200,000,000 bushels of wheat to sell to consumers whose annual needs are only 700,000,000 bushels was expected to hold the price close to the present levels untouched since the 17th century.

The pressure of the huge grain surplus—fruit of post-war overproduction over a period of years—brought suffering and prospective bankruptcy to farmers in the western grain belt of the United States and Canada.

In Iowa a bushel of old corn could be bought for less than a package of chewing gum. At the price of 4 cents a bushel it was marketed—where there was a market—for \$1.40 a ton. Coal sold in the same town at \$4 a ton and consequently huge quantities of corn are expected to be burned in winter stoves of farm homes.

In the northwest states many farmers were unable to find anyone who would even bid on their wheat despite prices so low they faced ruin.

Causes underlying the present precipitate break in world wheat prices were explained as due largely to Canada's fierce desire to rid herself of an enormous surplus of wheat in the world market cheaper than any other nation.

The Canadian government had pegged December wheat at 50 cents a bushel, a quotation which made this grain the cheapest that could be bought.

The sudden tumble of the British pound, however, upset this plan. The Canadian dollar rose against the pound to a premium of about 25 per cent. In contrast the Argentine peso held at a discount of about 30 per cent and the Australian pound at a 20 per cent discount in England.

This fluctuation buoyed the pegged Canadian wheat price too high

#### Trading Is Dull Until Near Close

United States Steel Common Reaches Above 37 in Late Hours

NEW YORK, Oct. 28.—(UP)—Stocks advanced 1 to 3 points in the last hour of trading today after fluctuating aimlessly most of the day. Volume continued light, sales barely reaching the half million share mark.

Leading shares held steady until after 2 p. m., when it rose above 37. The preferred covered a 1-2 point and touching 76 1-2 up 1 1-2 and finally shot up to 78, where it was 3 points above the previous close.

Strength in bonds, notably the railroad group, was a factor in the late stock market rally. Railroad shares were strong as a group. Atchafalpa and Union Pacific jumped more than 2 points each, while gains of more than a point were noted in a long list of others. Strength in the Baltimore & Ohio stocks and bonds featured the respective markets.

American Telephone fluctuated between 102 3-4 and 104 3-4 until near the close when it crossed 105. Other utilities did the same.

Leading industrials scored good gains. National Biscuit, recently a weak spot, rose more than two points. Case gained nearly 2 on steadier prices for wheat. United Alkali resumed its advance. American Can gained a point or more. Auburn Auto was up 3 points at one time.

Selling came into Studebaker issues late in the day as a belated sequel to the adverse report issued by the company in the third quarter. The preferred stock dropped 3 points to 41 where it was yielding 17 per cent.

Most of the day's meager supply of market news was favorable. Both

He said correct shoes would bring the legs back to normalcy.

#### RENEWAL OF RIOTING IS THREATENED

Prime Minister's Home and That of Bank of England Governor Watched

LONDON PATROLLED

Nineteen Policemen and 58 Demonstrators Injured in Thursday Battle

LONDON, Oct. 28.—(UP)—The House of Commons, the Prime Minister's residence and the home of Montagu Norman, governor of the Bank of England, were guarded today after the hunger marchers who rioted in Hyde Park yesterday had threatened renewed sabotage.

Guards at Buckingham Palace, residence of the King, also were on the alert.

Extra police were sent to Montagu Norman's residence after a telephone threat had been received in which the caller said, "We are sending unemployed to wreck the house."

The streets of London were heavily patrolled, and in many sections the constables walked their beats by twos instead of singly.

It was feared outbreaks at separated points, if well timed by the jobless, would be more difficult to cope with than a consolidated demonstration at one spot.

The jobless who participated in wild scenes in Hyde Park yesterday were persuaded to return peacefully last night to their various suburban headquarters. Despite the repeated declarations of their leaders that they would not have the hunger marchers herded into separate districts, most of them were lodged in poorhouses or schools throughout London. A mass meeting was scheduled for Trafalgar Square on Sunday.

77 Are Injured

Sir John Gilmour, home secretary, informed Commons today that 19 policemen were injured, two seriously, in Hyde Park yesterday, and that 58 demonstrators were hurt, making a total casualty list of 77.

Twelve arrests were made. Police found a truck loaded with 154 ash sticks, some of which had spikes or nails in them. He commended the work of the police and appealed for public support to maintain order.

Police dispersed a crowd that tried to rush the doors of Marylebone police court today for the hearing of eight of those arrested. Only one of the accused was an out-of-town marcher.

#### FLEET KEPT ON PACIFIC COAST TO SAVE MONEY

Admiral Sterling Deplores Suspicion of Motives of Navy Department

HONOLULU, Oct. 28.—(UP)—Suspicion of the motives in keeping the U. S. fleet in the Pacific was deplored in a navy day statement issued by Rear Admiral Yates Sterling Jr., commandant of the Hawaiian naval base.

"I am sure the people of America haven't the slightest intention of involving war or even attempting to humiliate Japan," the statement said. "Yet, from Japan there are reports the Japanese people are being made to believe the United States fleet is mobilized in the Pacific as a threat against their empire."

"We know the fleet is held in the Pacific for reasons of economy," Admiral Sterling charged that "yellow journals" on both sides of the Pacific were adding to the tension of the situation by publishing "inflammatory articles." He urged Japanese and Americans living in Hawaii to communicate with their fellow countrymen to allay suspicion.

The recent activities of the navy in Hawaii were classed as "progressive expansion" in the interest of security of trade. The admiral declared the American government had lacked vision when it acquired land for naval purposes here.

#### DEMANDS PROBE OF BEACH OIL LEASES

LOS ANGELES, Oct. 28.—(UP)—William May Garland, civic leader, today demanded a state investigation into a lease between the City of Huntington Beach and an oil company for drilling of beach lands.

The demand was made in a letter addressed to Gov. James Rolph Jr.

Garland asked that the investigation delve into the names of men and companies influential in having the lease made and a "complete bringing to light of all facts in relation to same."

He charged the lease was entered into without competitive bidding; the Pacific Exploration company being given drilling rights to 2880 acres of land "held in trust for the people of the state and option on nearly an additional 1000 acres for 30 years on adjoining state land."

#### FAMOUS IRISH FARM STRIKERS POET VISITING WILL DECLINE UNITED STATES TO PAY TAXES

William Butler Yeats Says Pugnacious Quality is Dying Out of Race

NEW YORK, Oct. 28.—(UP)—William Butler Yeats, Irish mystic, poet and intellectual, one of the greatest of living literateurs, today maintained that the pugnacious quality has died out in the Irish race.

Fresh from his beloved Ireland, Yeats granted his first interview to a roomful of reporters who were more eager to discuss Irish politics than his poetry.

The aging master of language, the creator of the exquisite lines that caused Hugh Walpole to call him "the greatest of the living poets," was adept in both realms.

He gestured forcefully, he shook an extended finger for emphasis. But his voice was subdued, his inflection scholarly, his words chosen with precision and wit. It was a subdued, "highly refined pugnaciousness."

Yeats is in America to see the American premiere of his play, "Words Upon the Windward," to be produced tonight by the Abbey Players of Dublin who are embarking on an American tour. Later he is to make a lecture tour, talking on "The New Ireland," and "Irish Literature."

#### HOOPER LEADS POLL AT UNIVERSITIES

PRINCETON, N. J., Oct. 28.—(UP)—A presidential poll taken in 47 colleges and universities in 32 states completed today gave President Hoover a lead of more than 1-2 to 1 over Franklin D. Roosevelt.

#### SMITH SCORES PRESIDENT IN BOSTON SPEECH

Unqualified Support Asked for Roosevelt, Garner Before 20,000

BOSTON, Oct. 28.—(UP)—"The unqualified, full and complete support of Franklin D. Roosevelt and John N. Garner" was asked of the voters of Massachusetts last night by Alfred E. Smith in an address to 20,000 of his followers.

The former New York governor's speech, made with his characteristic vigor, denounced the Republican administration, attacked President Hoover's Detroit speech, defended his previous utterance charging the Republican management with "bigotry," and urged all Democrats to support the national ticket.

"I was not satisfied with that Chicago convention," Smith declared, "and I know you were not satisfied with it. But listen! We settle these troubles in our party. We don't want any advice, and above everything else, we want no sympathy from Senator Moses or from his Republican cohorts."

Smith attacked President Hoover—and once more brought in the name of Roosevelt—when he discussed the president's statements regarding veterans' relief, in his Detroit speech. He said:

"The president said in answer to Roosevelt that even if he stopped all public works, he finally would have to take \$500,000,000 from the veterans, and he said that would be a grave injustice."

"A grave injustice to whom? To the taxpayers? That is the gross injustice, because there are men receiving money from the federal government today that not only never left this country but never saw any kind of service, were never injured in the service, or have no disability directly traceable to the service."

## MERCHANT UNIT BREAKS AWAY FROM C. OF C.

The Merchants Division of the Santa Ana Chamber of Commerce today was a thing of the past and in its place the Santa Ana Merchants association has been organized. It was announced today. A new constitution and by-laws have been set up but practically the same officers and directors have been named to take charge of the new organization.

H. E. Willard, president of the organization, announced that the Merchants Division had been re-organized at the request of the membership and the board of directors. The new organization, however, will continue to work closely with the chamber of commerce in every way possible, he said.

"We are working with the Business Men's association on the adoption of several new ordinances," Willard declared. "We feel that being a separate organization we can do a great deal more and help the chamber of commerce."

J. N. Harding is vice president of the organization; A. Cavalli continues in his capacity as secretary-manager and Ivis Stein has been named as treasurer. The merchants division was organized here on June 1 with Harding as first chairman. The organization now have 167 members.

The Merchants association will hold a general meeting next Thursday night at 7 o'clock in the Santa Ana cafe in the form of an after dinner smoker and merchants meeting. Plans will be discussed for a two week Holiday Fiesta similar to the one just staged as a jubilee. Charles Bauer, general manager of the Better Business Bureau, of Los Angeles, will be the speaker. He

will talk on the subject, "How to Improve Local Business Conditions."

The Merchants association will direct its activities mainly along the lines of promotional and educational trade work in Santa Ana, including the adoption of new ordinances and the enforcement of existing ordinances for the protection of the public and merchants of Santa Ana. It was announced, as well as waging a campaign against false or misleading advertising.

## FARM STRIKERS WILL DECLINE TO PAY TAXES

to farmers unable to meet mortgage payments.

An astute statesman sympathized with the farmer but said in many ways he was the most fortunate of those hit by the depression.

"At least he has something to eat—the absolute necessities of life—while the unemployed laboring man in the city is knocking on charity's door a month after his job fades out."

"Thus it appeared that the moratorium would excite just as much, and probably more, opposition than did the farm strike when it was in its most hectic stages. After much violence, which included even considerable use of firearms, the farm strike movement, on the surface, appeared to be losing ground when the new line of attack was announced.

## MERCHANTS USE TOMATOES IN MAIN STREET BATTLE

War broke out at Washington street and North Main street yesterday afternoon and from accounts, it was rather a nice war while it lasted, with tomatoes and tomatoes being used as ammunition.

When police arrived, peace had been restored and there were no arrests, but a battery of tomatoes had been fired and things were in rather an excited condition.

The police report filed soon after the battle tells the story for itself. The report reads:

"Vegetable man at North Main street market and the man in charge of the drug store at Main and Washington were having a battle with tomatoes, throwing them at each other."

"The man running the delicatessen department took up the battle with tomatoes from the stand of the vegetable man's store and the battle broke up."

"When we arrived truce had been declared by an apology from each. There were no arrests."

## FAMOUS IRISH FLEET KEPT ON POET VISITING PACIFIC COAST UNITED STATES TO SAVE MONEY

(Continued from Page 1)

Yeats had hardly put his foot upon American soil before he was deluged by the offerings of young American poets. Some of the poems arrived early, but Yeats' secretary explained that "the mass" never reads poetry before breakfast."

Yeats confessed a profound interest in Irish politics.

"I am a Cosgrave man, but De Valera is dead right in his dispute with Great Britain. Cosgrave and De Valera do not disagree in objective, they disagree principally in method. De Valera is following a dangerous course, but a right independent economic policy of the rest of the world."

Yeats spoke in fervent voice of Ireland and her aspirations.

"We haven't enough land today for tactical security of the base," he said. "Land now contiguous to the reservation is being held at far more than its original price."

Admiral Sterling dealt briefly with the naval treaties involving both America and Japan.

"We recently read from Japanese sources that Japan considers that by the Washington treaty she eliminated all fleets but our own from possible successful war operations in the Orient and that Japan has constructed and now maintains a fleet of all necessary war types commensurate with upholding her policies in that part of the Pacific."

"It is further reported that Japan decided to continue her formulated policies without heed to the protest of other nations."

"It would be inappropriate for me to dwell on the justice or injustice of this stand. I may be questioned as to the propriety of even dwelling on the delicate subject."

"Our diplomatic spokesmen and the League of Nations have not acquiesced in the policies of Japan, and have invoked several treaties to which that nation is a signatory."

## STOCK MARKET PRICES GO UP IN NEW YORK

Dunn's and Bradstreet's found steadiness in the fundamental situation.

Earnings of oil companies compared very favorably with those of a year ago, and railroad reports also were making a better showing as compared with recent months.

The pound sterling firmed up in the local foreign exchange trading, thereby eliminating for the time the unfavorable effect of a drop in that currency. Other currencies moved narrowly. The American dollar improved in France.

According to preliminary calculation, the Dow Jones and company industrial average stood at 63.08, up 1.23 points, railroad 28.67, up 0.81 and utility 28.01, up 0.59.

Sales were 700,000 shares, compared with a similar amount yesterday.

Aggregate market value of 10 leading stocks was \$9,601,666,000 vs \$5,500,947,370 yesterday, an increase of \$100,708,633.

## SMITH SCORES PRESIDENT IN BOSTON SPEECH

(Continued from Page 1)

The former Democratic candidate attacked the tariff as keeping goods out of the country, pleading that "the only way they (foreign nations) can pay us is in goods."

Smith criticized the administration's handling of the bonus army, and said it was the place of the president, "as commander-in-chief of the U. S. army," to go out and talk to them and explain the situation of the finances of the country with respect to the claims they were making."

In defense of his Newark speech, in which he charged that the public campaign management had been responsible for "bigotry" in the 1928 campaign, Smith said:

"I propose to show that the money required to spread the propaganda of religious bigotry in 1928 was supplied by the Republican committee."

**Introduce Bill**

It was announced that the government is introducing a bill in parliament on Nov. 8, mitigating somewhat the rigorous application of the means test. The means test, by which applicants for relief must prove their utter dependence on the state, is one of the chief objects of the demonstrations.

The government's bill was decided on a week ago, but undoubtedly the convergence of the marchers on London may somewhat influence the decision.

George Lansbury, labor leader, suggested that discussion of the Ottawa tariff decisions be curtailed to permit the House of Commons to devote a day next week to pooling ideas on the unemployment problem.

Meanwhile James McGovern, labor member, drew up a petition to the house pleading for a hearing for representatives of the hunger marchers. The petition read:

"We, unemployed workers representative of thousands who marched to London, desire to approach the bar of the house of Commons to plead for redress for the grievances of 3,000,000 fellow sufferers throughout the land. We pray we be given access to the bar on November 1 to plead our cause."

The rioters arrested yesterday were given various sentences in court today ranging from small fines to six months in prison. One was acquitted.

to meet expected competition from the southern hemisphere crop.

When this became apparent support of 50 per cent wheat was withdrawn and the price was allowed to sink to export levels again. U. S. quotations dropped in sympathy with the Canadian fall and also due to a determination of exporters to put United States grain in the world market on a competitive price basis.

Grain experts could hold little hope of materially better grain prices until by some means the enormous annual carryover of crops has been eliminated. The surplus, they pointed out, was particularly depressing at a time when all nations are under severe economic strain and unable in many cases to find money to purchase even the normal requirements.

## RIVALRY RUNS HIGH BETWEEN CHEST TEAMS

With the business department teams headed by F. P. Nickey within two per cent of the goal, and those of Harry Ball within 13 per cent of their quota, the report meeting of this section of the Community Chest campaign last night developed a keen competition between groups to see which will be the first to bring in the full share of pledges.

Both leading teams in the department are working under the division headed by R. B. Newcom, the entire section showing about 40 per cent of its quota as in. However, the division headed by J. S. Hill as vice chairman as a whole is slightly headed on its quota and has the next two high units within it, these being those captained by M. B. Youel and W. Roy George.

At the report meeting in campaign headquarters, volunteers of the business department agreed that they would make strenuous efforts to clean up their entire territory by next Tuesday evening, when another report meeting is to be held. At that time all cards will be gone over and arrangements made to re-check those who have not subscribed in a final effort of this division to bring its showing to the full quota assigned.

## Urge More Pledges

"Thus far the average pledge in the business department is running ahead of last year," R. B. Newcom, acting chairman, told the meeting. "However, up to the present we have brought in only about one-half as many subscriptions as were finally produced in the business department last year and it is in this direction that we must look for the answer to the lagging in the chest appeal."

Leaders last night reported that too many people this year are not making pledges because they are unable to give an amount equal to former years or larger in keeping with the emergency welfare and relief needs. Newcom urged that persons unable to give as much as they would like to be able to, at least do a little toward making the fund possible.

Much the same problem is facing the residential department of the campaign. It developed at the meeting yesterday morning at the Y. W. C. A. The average amount of pledges is running ahead of last year, but the number of subscriptions is falling down. Miss Mabel McFadden stated.

The women's department decided to continue its appeal on through next Thursday, and will make reports of progress today, Tuesday and Thursday. At the final report meeting of this department unproductive cards will be gone over and re-assigned in an effort to secure some final help from those not having pledged up to that time.

## Give Day's Pay

The establishment employees department of the welfare and relief appeal, has been notified that on Monday all employees of the Safeway stores in Santa Ana will get paid at least one day's pay as subscriptions to the Community Chest appeal. John Cranston, chairman of this department of the campaign, is urging that other employee groups which may find it impossible to make the original goal of from one to one and one-half per cent of their payroll, follow the example of the Safeway stores.

This department of the appeal held its report meeting at the Chest headquarters today and decided to try and complete all first solicitations by Tuesday. An appeal to firm chairmen to get their reports in by Saturday if possible, has been issued through Mr. Cranston.

## Plan Benefit Show

Barry McPhee, chairman of the public utilities employees department has called for a report from his division on Monday at eleven o'clock. In this section, the greatest amount of lagging is coming from the railroad and transportation units it is said. To further add to their chest subscriptions, employees of the Southern California Edison company have arranged a benefit to be held on Tuesday evening. The Edison show will be held at 805 East Washington street in the evening and will present several professional acts. Company employees from Santa Ana, Fullerton and Huntington Beach have been asked to attend. The public is also invited to further aid the welfare and relief fund by attending, as all money raised will go to the Community chest.

"Within the next 10 days every citizen in Santa Ana must take an active interest in the problem which is confronting us in the care of the welfare, relief and preventive problems of the thousands of our neighbors who are in distress," W. J. Tway, Community chest president declared. "We simply dare not let this appeal fail, and there is only one way to prevent such a disaster and that is through the securing of around 1500 additional pledges."

"Regardless of the financial position of most of us, we can find

a way to cut off this or that expenditure in order to make a subscription to the fund. This we must do, and do promptly unless we are willing to face thousands who will be hungry, sick and without aid during the coming months."

## Pilgrim Lovers' Story Theme Of Claremont Opera

Rehearsals are under way for "Priscilla and John Alden," an opera which is to be presented by the Claremont Community Players, at the Little Theater in Padua Hills on November 4 and 5, and 11 and 12, with matinees on November 5 and 12.

The music for the opera was written by Henry Purmort Eames, and the lyrics by Hartley Burr Alexander, both from Scripps college.

The opera was presented by the Community Players at the High School auditorium in 1930, and is being repeated at the urgent request of many friends.

The music for the opera will be directed by Dr. Eames, and the stage direction will be under the supervision of Mary Blaisdell Harris, with Mr. Harris as technical director. Miss Clara Anderson, head of the department of physical education at Scripps college, will have charge of the dances.

The orchestra will be under the direction of Herbert Gray of Pomona college, with Gordon Sutherland of Pomona as accompanist. The part of the heroine, Priscilla Mullins, is being played by Marjorie Wilkins, while Cartwright Hunter is taking the leading men's part, John Alden.

## Announce Low Rates To N. Y.

W. A. Shook, general agent of the Union Pacific in Santa Ana, today announced the Union Pacific is publishing a special rate from California points to New York City and return.

Tickets will be on sale for going passage October 30, final return limit November 28, 1932; stopovers in each direction. This is the first time in the history such a rate has been published by the Union Pacific. All department store buyers are particularly interested in a rate of this kind, as they are now making their eastern buying trips.

## A STATEMENT BY J. A. BEEK

Secretary of the Senate, State of California

To The People of Orange County

Balboa, October 24, 1932.

To the People of Orange County:

It has come to my attention that a circular published in the interest of John A. Vye, Independent candidate for the State Senate, embodies an attack on the legislative record of Senator Nelson T. Edwards, which attack contains gross inaccuracies and numerous misleading statements. In justice to Senator Edwards I feel that it is my duty to direct your attention to a few of the most unjust features of this attack.

1. It is charged that Senator Edwards voted to increase salaries of county officials. The records show that he did not. Orange county government bills of 1931 provided no increase of salaries and added no employees except those recommended by the Grand Jury and the Board of Supervisors (see Chapters 104, 105, 106, 107 and 118, Statutes of 1931).

2. The circular states that Edwards voted to empower the supervisors to levy a tax of \$60,000 to \$75,000 for advertising. The records show that he did not vote for this bill. (See Senate Bill No. 948, page 2376, Senate Journal).

3. The circular states that Edwards voted for a gambling bill. This statement is false. He did vote for Senate Bill No. 958, which was against gambling. (See page 2523, Senate Journal).

4. It is charged that Edwards did nothing to eliminate useless and wasteful expenditures. The committee records show that he voted against all measures raising salaries of state employees and against numerous appropriation bills. Among them was the Teachers Pension Bill, Senate Bill No. 260, which would have cost the state approximately \$2,000,000 per year. He also voted against an appropriation of \$80,000 for an airplane for the Governor. (See Assembly Bill No. 888, page 2976, Senate Journal).

5. It also states that Edwards voted for exemption of bank taxes. This statement is false. Senate Bill No. 325 provides for the collection of from \$400,000 to \$500,000 in taxes which the banks had been escaping. He voted for this measure. (See Chapter 64, Statutes of 1931).

6. It is charged that he voted for the State Employees Pension Act. In doing so he carried out the mandate of the people as expressed at the polls in November, 1930.

7. The circular implies that he cannot be trusted with dry legislation. The records show that he was a member of the Public Morals Committee and that he voted against Senate Bill No. 295, Repeal of the Wright Act, and against Senate Bill No. 234 directed against the Eighteenth Amendment and voted against motions to withdraw each of these bills from committee. (See pages 2376 and 2379, Senate Journal).

8. The circular states that he voted for the Sharkey Bill, but it fails to state that the records show that he voted against sending it out of committee and that he voted in favor of the amendments sponsored by the independent oil companies, including an amendment offered by Senator Iman (principal opponent of the bill), which would have removed the most serious objections to it. (See page 2173, Senate Journal).

The circular contains numerous other misleading assertions and others that are immaterial. I regret that the author did not avail himself of the Senate Records and thus secure accurate and dependable information.

(Signed)

J. A. BEEK,

Secretary of the Senate

State of California

## Wurlitzer Is S. A. Visitor; Optimistic

Another "bright spot" in business was brought to the attention of local merchants and citizens yesterday when Rudolph Wurlitzer, head of the great music company chain of stores, who was a visitor in Santa Ana, pointed toward an increased business in his stores throughout the nation as a positive indication of returning normalcy of business conditions.

Wurlitzer, who spent some time in conference with local bank officials on matters of business, was highly optimistic in his declaration that business is on an upward trend and that the worst days of the depression are now past. He was accompanied here by J. L. Payton, Pacific Coast manager of the Wurlitzer Music company.

## REPUBLICANS SWEEP TICKET IN STRAW VOTE

President Herbert Hoover would have little difficulty being elected president again if the way members of the Santa Ana Lions club feel is a good criterion.

In a straw ballot cast the regular weekly club meeting held yesterday noon in Ketter's cafe, Hoover was given 41 votes against 5 for Roosevelt. Norman Thomas, Socialist candidate, received no votes.

Tubbs, Republican candidate for United States senator, received 26 votes over his closest opponent, Shuler, who received 10. McAdoo, Democratic candidate, was given nine votes.

Collins received 38 votes for Congress against seven for McKinney, Democratic candidate.

Edwards, Republican, was given 43 votes against two for Wettlin, his Democratic opponent for state senator from this district.

Jerome was given 31 votes for supervisor in this district while his opponent, Van Wyk, received seven votes.

# NATIONAL WHIRLIGIG -- News Behind the News --

WASHINGTON By Paul Mallon

**HOOVER**  
Hoover gains are beginning to reach tangible proportions. A private telegraphic survey was made last Tuesday. Trustworthy agents wired to a financial source in Washington the candid facts, not for publication. The results follow:

**OHIO**—estimated gain of 8 per cent for Hoover in past week; not enough yet for Republicans to win.

**INDIANA**—renewed activity by Republicans, considerable hope, state doubtful.

**NEW YORK**—Buffalo and Syracuse report strong Hoover gains; Republicans claim 10,000 majority in Syracuse compared with 1900 two weeks ago. Poll by Republican newspaper in Buffalo indicates Hoover may poll nearly as much as four years ago.

**IOWA**—Republicans much more confident, but combating low farm prices, state doubtful.

**MINNESOTA**—some indications of change, but hardly noticeable.

**NORTH DAKOTA**—possibility of last minute overturn here.

**MONTANA**—very close; no change.

**WASHINGTON**—Irretrievably lost; no hope for Republicans.

The eight states were selected for a cross country view. On the strength of it political scouts were sent out to re-check all next week.

The conclusion to be drawn was obvious. Mr. Hoover is making a dent in the situation. He has a long way yet to go. Some unexpected turn before election day might make the result too close for comfort to either side.

Republican gains are strongest in industrial communities. That indicates clearly the bogey-man campaign is bringing results. Republicans are being scared into line for the ticket. It is no longer a secret that many employers are threatening to close up shop unless their help votes Republican.

The report from Syracuse stated

ed the Hoover majority in a large factory there had increased 50 per cent in the past six weeks.

The whole political situation now hinges on whether enough will respond to the drive to alter the pro-Roosevelt national picture.

**BOOS**  
The Detroit greeting to President Hoover was much worse than you have heard. He ran a gauntlet of about four continuous miles of booing. Old timers in the Presidential entourage could not recollect any President ever having been so frankly treated.

He took it good naturedly. The car was speeded up to rush him through as fast as possible. Later on the train he sat up until 1:30 a. m., smoking and laughing about it.

The Detroit chief of police came to him privately, expressing mortification that such a thing happened. The President clapped him on the back and said the police did a good job.

Henry Ford confidentially explained the thing to the President as an eruption of Communism. He has reason to believe some of the supposedly conservative family men in his shops have gone Red. That is a startling piece of news. If true, Heretofore Communists in the larger cities have been fly-by-nights. They have not generally owned their homes or cars. Raising Hades rather than families has been their chief occupation.

If all those who booed Mr. Hoover at Detroit were Communists there are a lot more than anyone thought.

Probably a more accurate explanation for the historical demonstration would be "Democratism."

**CROWDS**  
The station crowds in other large industrial centers have greeted the President warmly. Most of these receptions you read about are drummed up by the local Republican organization. The Ohio Republicans worked for days on telephones getting out the crowds for the Cleveland trip.

**HITLER**  
Those who keep a close hidden eye on Germany report Hitler's vote will be about 3,000,000 less November 6 than in the last election. That will not give the government a parliamentary majority. The government will then probably call another election for February. The expenses would put the Nazis in deep hot water.

There seems to be an inside deal whereby Hitler will never become dictator. The best he can look for now is a small cabinet post.

**ARMS**  
Mr. Hoover gave a plain disarmament tip to those who read closely his Detroit speech. He said no reduction in our army or navy expenses could be expected in the light of existing world conditions. That disclosed how pessimistic our Government is about possible success of disarmament.

It confirmed publicly all the private reports he has been receiving about the European situation. They all want disarmament—for the other fellow.

**NOTES**  
Senator James Couzens told friends he was appearing publicly with the President at Detroit in order to help the state ticket. Couzens has not announced for Mr. Hoover. He will not "unless those fellows get too harried about trying to push me out for Roosevelt." The White House confidentially asked the railroad schedules for trips to Chicago, St. Louis and Minneapolis.

The intention was clear that the President was considering campaign trips to those localities.

Considerable data for the Indianapolis speech was furnished by John L. Lewis, president of the United Mine Workers. Mr. Hoover called him in for consultation on the mine situation, applicable particularly to adjoining Illinois.

The National Economy league will shortly open a publicity lobby here. It will buck the American Legion lobby. That is a big job.

**NEW YORK**  
By James McMullin

**ELECTION**  
Election odds are sitting steady. Roosevelt money is being offered at 2 to 1 while those who wish to bet on Hoover's chances are asking 3 to 2 to 1 and sometimes getting it but large bets go begging even at the long figure. Some of the odds on state results are interesting. Pennsylvania is quoted at 8 to 5 for Hoover, New Jersey 8 to 5 for Hoover, Ohio 6 to 5 for Roosevelt, Massachusetts 7 to 5 for Hoover, California 2 to 1 for Roosevelt and Maine—in spite of the September result—is offered at 9 to 5 for Hoover.

In New York state the odds are 3 to 2 on Roosevelt and 7 to 5 on Lehman. Darnell & Company, well known betting commissioners—quote no odds on the Wagner-Medallie contest for senator. Wagner is assumed to be safe for a run-away.

It is probable that the official odds underestimate Lehman's strength. There is a concerted movement among Republican Jews to vote for Hoover and Lehman and thereby to demonstrate the power of the Jewish vote. It is quite possible that Lehman will run one hundred thousand ahead of Roosevelt.

So-called contests for minor offices in New York City are getting no attention from the local press or public. For example Joseph T. Higgins—Democratic candidate for the important job of sheriff of New York county—is so certain of elec-

tion that his name is never mentioned. It takes research to discover that his Republican opponent is a man by the name of Abraham Grenthal. Even the Republican papers in the city don't refer to Grenthal at all. Incidentally the sheriff's office is the one from which Al Smith started his climb to fame.

There are a flock of theoretical contests being waged for seats in the state senate and assembly but nobody seems to care. Almost the only one to attract attention is Republican Walter Mack's effort to win the senate seat left vacant by Hofstadter. Hofstadter's margin of victory at the last election was 578 votes. Mack has put on an intensive publicity campaign but he may be buried in the Roosevelt landslide. Then there will be no Republican senator from this city.

Despite the publicity given the raucous protests against the Hofstadter and Steuer state supreme

court deal you can get 20 to 1 that Hofstadter will be elected.

**SMITH**  
Widely circulated reports have credited Roosevelt with the intention of appointing Al Smith to a super-cabinet job with the task of coordinating all government departments in the interest of economy. This seems to be largely hot air. All signs indicate that some job for Smith is in the offing but it will hardly be as powerful as all that. Personal relations are still none too cordial.

**LABOR**  
Advices from labor sources indicate that railroad and automobile workers are more determined than any other groups in their opposition to Hoover. They have adopted a by-word which refers to periods of joblessness as "Hoover holidays."

Insiders figure here that Ford's

pro-Hoover announcement probably won plenty of votes for Roosevelt among his employees. Ford is hardly popular with his workers and private advices from Detroit state that many of them were among the Detroit crowd which jeered the president.

**STEEL**  
Declaration of the regular preferred dividend of U. S. Steel in the teeth of a depressing earnings statement can be ascribed partly to the fact that the campaign for more railroad business is coming through in good shape. Personal considerations were also a factor. Nearly all of the directors have other important connections which might have been damaged—psychologically and otherwise—by omission of the payment. There was considerable pre-meeting talk about political consequences but these had little weight in the final decision.

## NOTED ORATOR TO SPEAK AT CHURCH

Dr. Gifford Gordon, of Philadelphia, one of the leading orators in the nation and prominent in prohibition work, will occupy the pulpit at the First Christian church next Sunday morning. It was announced today by the Rev. Walter S. Buchanan, pastor.

Dr. Gordon formerly resided in Australia and came to America to make a national study and survey of that country. After making a favorable report to his country he returned to America. He recently drove to Santa Ana from Philadelphia and will spend the winter in Southern California.

He will attend the service of the Men's Community Bible class at the Fox West Coast theater Sunday morning and if time permits may speak briefly to the men.

## SPEAKS HERE

Dr. Gifford Gordon, below, noted orator and prohibition worker of Philadelphia, will speak at the First Christian church next Sunday morning.

## U.C.L.A. Alumni to Have Homecoming

Alumni of the University of California at Los Angeles will celebrate their annual "homecoming party" this evening, on the eve of the Stanford game in the Los Angeles Olympic Stadium tomorrow.

The afternoon's activities also will include a tour of the campus at 5 p. m. and a dinner in Kerckhoff hall at 6 p. m. The highlight of the water carnival will be exhibition diving by Georgia Coleman and Mickey Riley of the American Olympic team.

The more elaborate evening program will begin at 7:30 o'clock with an exclusive all-alumni entertainment in the auditorium of the education building, followed by a bonfire rally with the undergraduates on the athletic field with a pajamero parade, songs, yells, and a pre-game fight talk at 8:30 and an all-university, informal rally dance in the recently completed women's gymnasium at 9:30 o'clock.

## PREDICTS 10 TO 15 PER CENT SAVINGS IN COSTS OF BUILDING AQUEDUCT

The Colorado river aqueduct to be built by the Metropolitan Water district will likely cost 10 to 15 per cent less than estimates, it was declared by Col. S. H. Finley, secretary of the district, before the Santa Ana Lions club yesterday noon at Ketter's.

Within 20 days some of the initial bids will be opened and the cost of the 13-mile San Jacinto tunnel and other initial units will be definitely known, the speaker declared.

Col. Finley reviewed the history of the district and efforts made by obstructionists to hamper the program. He reviewed briefly the alternate routes through Lower California and via San Diego, and said they had been considered and discarded by the district, in favor of the Parker route.

He pointed out that there will be two large distribution lines to the cities, one along the foothills to Pasadena and Los Angeles, and another across the northern part of Orange county to supply Long Beach, Compton, and neighboring communities.

James B. Utz was chairman of the day and the musical numbers were furnished by Miss Georgia Belle Walton, violinist, and Miss Ruth Armstrong, accompanist.

## LAW REQUIRES MOTORISTS TO STOP WHILE SCHOOL BUSSES ARE UNLOADING

"General professed ignorance of the state law which makes it mandatory for drivers of automobiles to stop while school busses are loading or unloading is responsible for just such terrible tragedies as occurred near Tustin recently when a little nine-year-old school girl was run down and both legs broken," Highway Patrol Officer George W. Peterkin, who is in charge of school safety work in the county, declared today.

In an interview, Officer Peterkin pointed out that the man who was driving the car that struck the small girl admitted he did not know the law about stopping for school busses.

"There seems to be a general ignorance of this law on the part of the public," he said, "in spite of two years of newspaper publicity, talks before school assemblies and parent organizations. The busses of the entire county even carried canvass posters on the back last term with this information in large print and in spite of this when arrests or warnings take place the person stopped invariably professes complete ignorance of the existence of such a law."

"School bus drivers are reporting almost daily near accidents caused by those in ignorance driving past school busses at high speed when the busses are loading or unloading children. This law was enacted for the protection of little irresponsible children who cannot be expected to know and exercise the caution of adults who themselves find it a real problem to get across highways safely these days."

"Those who do know of such a law have the impression that the stop is required only when approaching the bus from the rear but as a matter of fact a stop is required when meeting the bus and the width of the road does not excuse the driver from complying with the provisions of the same."

"People passing schools should use every precaution and have their car under absolute control as they cannot know when some little child might dash out in front of their car. A speed of 15 miles an hour is allowed only when safe. While it is true that children do things that they should not and the actions of some give many motorists nervous chills, still, that is no reason why the motorist should not do everything within his power to avoid hitting one and should always be prepared for the unexpected."

"Sec. 134 1-2 of the Calif. Vehicle Act has the following to say about stopping for a school bus: 'The driver of any vehicle upon a public highway outside of a business or residence district upon meeting or overtaking any school bus which has stopped on the highway for the purpose of receiving or discharging any school children shall bring such vehicle to a stop immediately before passing said school bus but may then proceed past such school bus at a speed not greater than is reasonable or proper and in no event greater than 10 miles an hour and with due caution for the safety of pedestrians.'"

SCHOOL HEADS TO CONVENE TALKING, Oct. 28.—Principals of rural schools are being entertained this evening at Fountain Valley school. Prof. Hollis Fitz, principal of the local school, is acting as host to the group.

## ANSWER MADE BY EDWARDS TO VYE CHARGE

In a statement issued today State Senator N. T. Edwards, candidate for re-election replied to recent personal attacks by J. A. Vye, independent candidate for the same office. Edwards was attacked for actions of the board of supervisors, for defeat of banking legislation senate bill 481, and regulating building and loan associations.

"In justice to myself I should not be blamed for any action of the board of supervisors since February, 1922, as I have not been a member since that date."

"Neither should I receive credit for defeating all bank legislation, as to the best of my knowledge I was the only active banker who belonged to the 1921 senate. Approximately two-thirds of both houses are attorneys. The facts are that I never voted against the banking bills mentioned as no one ever attempted to get them out of committee."

Referring to regulation of the building and loan business in this state, Senator Edwards declared that senate bill No. 481 was replaced by senate bill No. 945, by the same author, Senator Inman, and was made a law.

This new bill, Edwards said, provides for more rigid inspection of building and loan associations, requires them to carry a cash or bond surplus of from three to five per cent and is primarily in the interest of the investors in building and loan certificates. He said "I worked and voted for it, and I am proud of it."

## FREEDOM OR FARM

PITTSBURGH, Pa.—Charles W. Crouthers, 42, is undecided whether he wants a divorce or a farm. He told Justice of the Peace George C. Blyair, in seeking a divorce

that "she's been divorced four times, and once more wouldn't do any harm—but why does she want that farm?" His wife says she'll consent to a divorce, but she wants his farm if the divorce is granted.

## REPUBLICANS TO RALLY AT BEACH CITY

Republican interest in Orange county was centering today on the big rally and meeting which is scheduled to be held at Memorial hall in Huntington Beach at 8:30 o'clock tonight.

The meeting, which will begin with a dinner, is sponsored by the Republican County Central committee, the Young Men's Republican club, the Orange County Women's Republican club and all other party organizations in the county.

In addition to a featured speech, Republican local candidates will be heard in brief address. The public is invited.

## Bridge Enjoyed In Garden Grove

GARDEN GROVE, Oct. 28.—Mrs. A. J. Woodworth, assisted by Mrs. Charles Lake, entertained a group of friends with an afternoon of sewing and cards at her home on West Stanford street Wednesday. At the close of several games of bridge, prizes were awarded to Mrs. E. O. Fulson, who held high score, and Mrs. J. A. Williams, for low score.

At the refreshment hour the tables were covered with crepe paper in Halloween colors and centered with lighted pumpkins. The same color scheme was carried out in the flowers throughout the home. A salad course with sandwiches and coffee was served to the following: Mesdames Jack Jennings, C. B. Henry, J. A. Williams, A. C. Robbins, E. O. Fulson, E. W. Edwards, Ray Johnson, L. L. Dolg, J. Oriand Smith, W. B. Merchant, W. J. Newsom, W. A. Wheeler and L. W. Schauer.

## Why Break the Citrus Market?

Under the present Republican tariff, Italian lemons pay \$2.25 per box (90 lbs.) for admission to your lemon market.

Under the 1913 Democratic Underwood tariff bill, Italian lemons paid 35 cents per box.

Do California lemon growers want to go back to the Democratic tariff?

Do avocado growers want to go back on the free list or retain their present protection of 15 cents per pound?

Does any California grower desire to surrender advantages of a Republican tariff?

Ask the grower.

The prosperity of California is bound up in the Republican tariff. Every California job and every California investment is safer with a Republican tariff.

## Elect Collins to Congress

## Because:

He has shown that he knows how to enforce the law efficiently and through this experience should know what laws to enact.

## Because:

His sincerity is unquestioned; he makes no promises which he cannot fulfill — AND HE HAS NOT BOLTED HIS PARTY.

## Because:

He stands for a protective tariff on all farm products and oil, thus insuring a respectable price for producing such products and the labor producing same against the invasion of cheap foreign labor producing such products.

## Because:

For that reason he has received endorsement of the leading citrus, bean, avocado, walnut, beet growers and other organizations of Orange County.

## Because:

He has the farmers' view point on tariff, as he is an orange grower himself.

## and Because:

He has spent 29 years in San Bernardino, Riverside and Orange counties, consisting of the nineteenth congressional district, and knows the need of his district.

## REPUBLICANS ATTACKED BY VET LEADER

Rapping the Republican administration both in the nation and in the state of California, Democratic candidates for office from this county, together with A. F. Entenza, former national commander of the Spanish American War Veterans, addressed a large crowd last night in the Moore Hall, at Fourth and Spurgeon streets.

Jules Markel acted as chairman of the meeting and the principal speaker was introduced by Walter Tantlinger, former commander of

the Calumet camp of the Spanish War Veterans.

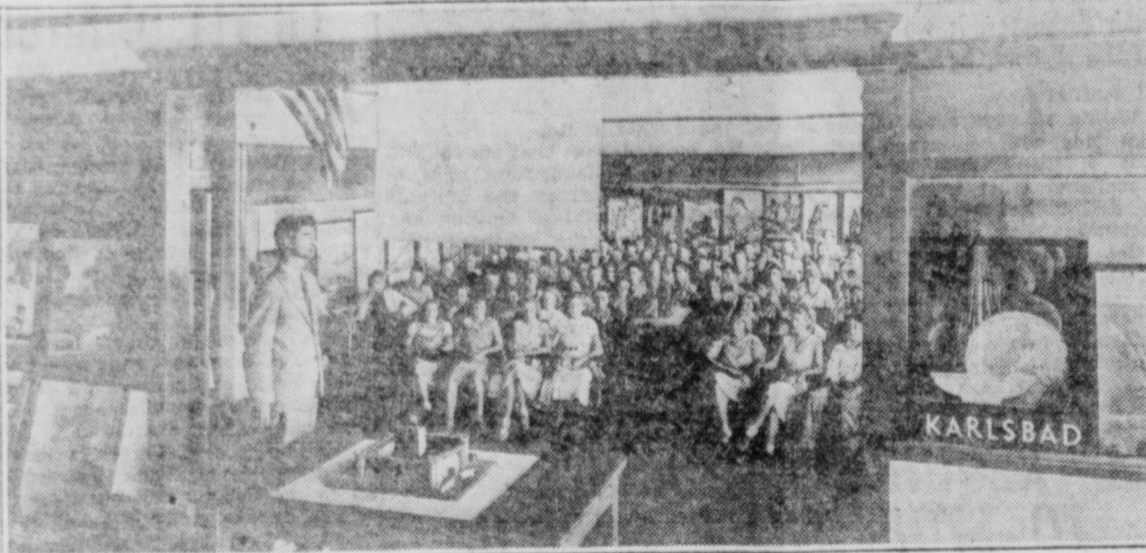

In his opening remarks, Entenza declared that Franklin D. Roosevelt was as good as elected president now, that there would not be any great amount of voters change their minds between now and election time and that Republicans should be as happy over it as the Democrats. He stated he was a Republican Progressive and that four years ago he was 100 per cent for Herbert Hoover, believing the man to be a genius. "I looked on Hoover as another great progressive, then, I even compared him with Theodore Roosevelt," he said.

Then Entenza explained why he had changed his mind. Much of his talk concerned veteran legislation and how the administration had failed to aid the ex-soldier. He declared that Hoover had five times vetoed veteran legislation, and that four times congress found it necessary to over-ride his veto. "Hoover simply does not understand the

## WHAT THE SCHOOLS ARE DOING

Shown below is the projection room of the visual education department of the Julia Lathrop Junior High school, with a class watching a film which is being explained by Ralph Baker. In the absence of an auditorium at the school the largest class room has been arranged to accommodate about 100 pupils and provided with facilities for darkening the room and showing pictures. Many films and slides are available at little or no cost from various sources for use for educational purposes.

## Market Wins In Damage Action

John H. McCaffrey has been refused damages for injuries allegedly received when he fell down cellar stairs at the Alpha Beta Food Mar-

kets, Inc., store at 304 East Fourth street. His suit for \$15,716, against the market organization was heard Wednesday in department one, superior court, before Judge Frank Collier of Los Angeles, who is sitting for Judge H. G. Ames.

McCaffrey alleged that he fell down an unlighted cellar stairway

at the market on the afternoon of January 23, last, and received such serious injuries that he was under a doctor's care for several weeks. In his complaint he accused proprietors of the store with negligence in maintaining an open stairway without proper lights or protection for customers.

## Who Is the Man for Senator and Why?

### Who Should Represent California in the United States Senate?

This is the main undecided question to many voters. Minds are made up pretty well on the national ticket for President, but many people are in serious doubt as to the United States Senatorship.

This is particularly true of Republicans. Who can best represent California in the interest of California?

Who can do the best for its name, its reputation, its great interests?

Who, if you were sitting in the gallery of the senate among strangers, and various Senators were taking their seats, would you rather have among these three men walking down the aisle, and taking his place in that greatest national law-making body in the world?

Who would add to its dignity and its character?

Who would treat the President, whether it were Mr. Hoover or Mr. Roosevelt in a courteous, gentlemanly and considerate manner, as befits the character of a United States Senator?

Who is the man who could be counselled with at all times, and at all hours, and under all circumstances, with the knowledge that he would make a contribution to such a conference of value and worth, in harmony with the great state of California?

Who would be a help to either Chief Executive, if elected, in a dependance that would be placed upon him of that kind?

Who would assure, in case of the election of Mr. Roosevelt, that California would have the most powerful man with the administration, in the United States Senate, a man who could bring to bear all the power of the administration in the interest of what was just and right for his own state?

Who is the man who would be second to none in this nation as the man who could be trusted and helpful at such an hour?

Who is the ONE man of the three who would be known of all men in the Senate, and of prominent men in the nation at once, and who could meet them intelligently upon their own ground, on behalf of his constituents?

Who is the man who can be counted upon to be able to fulfill his pledge that he will stand by the business, including the citrus interests of California, the best of the three men?

Who is the man who would credit the intelligence and the character of the people of California for electing him? Whether it be a matter of politics, a matter of intellectual acumen, or business, would it not redound to the benefit and glory of the state of California to send the ONE man who measures up in all of these respects, WILLIAM G. McADOO.

## DRAWS JAIL TERM ON CHECK CHARGE

Margaret Addis, alias Helen Madison, who pleaded guilty Friday in department two, superior court, to issuing a check without having sufficient funds in the bank, has been sentenced by Superior Judge James L. Allen to serve one year in the county jail. The original charge of issuing a fictitious check, a felony, was reduced to the one to which she pleaded guilty.

She was arrested for cashing a check at a Fullerton market without having sufficient funds with which to cover it. Following her arrest it was found that she had served a sentence in San Quentin for a similar charge.

Santa Ana and other Southern California cities have been placed within talking distance of a new portion of South America through the recent extension of transoceanic telephone service to Lima, Peru, and nearby points, according to E. S. Morrow, district manager of the Southern California Telephone company.

Telephone service has been available for some time to Argentina, Brazil, Chile, and points in Uruguay. Calls from Southern California to Peru are being routed by land wires to New York, and then sent by radio from the sending station near there.

## Prevent Speeder From Driving Car

If Howard F. Welch, of 1115 Kilson drive, Santa Ana, will refrain from driving his automobile for the next six months, then a five day jail sentence which hangs over his head will be forgotten by Justice Kenneth Morrison. He was arrested several days ago by Ray Bradfield, California highway patrolman, who charged him with speeding 50 miles an hour. Welch was given a suspended jail sentence on condition he does not drive.

Mrs. J. D. Campbell, chairman of the Orange County League of Women Voters, spoke before members of the newly organized home department of the Farm Bureau at the farm advisors office yesterday afternoon, discussing the various amendments on the November ballot.

Mrs. F. L. Benson, chairman of the organization conducted a business session, explaining the objectives of the home department and suggesting that a recreation or program committee be selected from the various farm center to plan programs and entertainments to be used at the regular farm center meetings. It was decided that each member of the executive committee select someone in their district to serve on such a committee and that a meeting should be held soon with the executive committee that this phase of the Home Department work might be started at once.

Women in attendance represented Garden Grove, La Habra, Tustin, Anaheim, West Orange and Santa Ana.

## SOMETIMES BETTING ODDS FAIL IN PICKING RIGHT MAN IN ELECTION CONTEST

By RODNEY DUTCHER

WASHINGTON, Oct. 28.—On the cold, gray morning of November 9 most American communities will observe certain citizens nosing frankfurters toward the city hall, pushing somebody else around in a wheelbarrow or parading down the main pike in a bathing suit and a straw hat.

Also, probably a few million dollars in cash will change hands and a small army of election gamblers will be taught once more that it's a big mistake to bet on a presidential candidate against the odds.

Betting odds, like straw votes, have nearly always proved reliable in indicating the winner. Only in a very close election are they likely to miss.

They may also at times prove themselves as up-to-the-last-minute indicators, registering final trends at a period when the last ballot in any unofficial national poll has long since been counted.

Any decrease in the odds against Hoover during the last two or three weeks before election will bear watching. They have a way of lengthening or shortening in the right direction. The recent odds of 5 to 1 on Roosevelt, lengthened from a previous even money bet, are much shorter than the odds prevailing at the close of other recent campaigns.

The accepted odds are set in Wall Street, where men of money gather, and are much more likely to be based on cold-blooded analyses and accurate current information than the two-dollar bet that you and I might make through sentimental partiality. Betting houses make careful studies and investigations.

The last time the odds went wrong—or almost went wrong—was in 1916, when Wilson so narrowly nosed out Hughes. Many millions were bet in Wall Street on that one because there is always more money bet when the odds and the race itself are close. In September bets were being made on Hughes at 2 to 1. They dropped gradually and were 5 to 4 just before election day, when most bets were made at even money.

It was two or three days after election before it was known who was the winner and who the loser—the peanut-nosing and wheelbarrowing also being held up.

The day before election in 1928 odds on Hoover had risen from 4 to 1 to 5 to 1, with little Smith money available. Earlier in the campaign 5 to 2 had been quoted. Wall Street that year correctly picked Roosevelt to be elected governor, 2-1/2 to 1, but incorrectly picked Smith to capture New York's electoral vote, 6 to 5.

Back in 1888 the odds went wrong on President Cleveland, 5 to 4 against Benjamin Harrison, but it was close, as Cleveland won a popular plurality and missed

A historical switch in the dope—and the odds—occurred in 1896, after Bryan had gone through the summer a slight favorite over McKinley. As the probable effect of Mark Hanna's high pressure campaign became apparent, however, the odds quickly turned over to 3 to 1 on McKinley.

Four years later McKinley was a 4 to 1 favorite against Bryan. Roosevelt started as a 2 to 1 favorite over Parker in 1904 and wound up picked by 5 to 1.

In 1932 Taft rose from a mere 2 to 1 favorite in September to an 8 to 1 choice on election day. Four years later the odds were 5 to 1 on Wilson against Taft and 3 to 1 against Theodore Roosevelt, although Roosevelt polled a much larger electoral vote than Taft.

Harding was a 10 to 1 favorite over Cox in 1920, prior to the landslide.

Betting on Coolidge was 5 to 1 and 7 to 1 in the summer and fall of 1924. It is said that a group of wealthy Democrats, disgusted at the depressing effect of such odds, pooled a hundred thousand dollars or more to bet on Davis with the idea that they could force down the odds. Almost immediately thereafter the odds shot up to 15 to 1.

## SPECIAL CLASS FOR YOUNG BOYS AT Y

One of the most interesting groups in the Y. M. C. A. program of boys' work this year is the special class for small boys which meets every Saturday morning at 11 o'clock for an hour's work under the direction of R. R. Russick, physical director.

The class is open to every boy under nine years of age whose father is a member of the Y. M. C. A. There is no charge for the work. The boys have half an hour in the gymnasium, where they are given elementary work in tumbling and simple floor gymnastics, adapted to the needs of the very young lad. Then they go to the swimming pool where Russick teaches them to swim and dive.

There is room in the class for a number of additional members, and parents who would like to take advantage of this unusual opportunity for their small boys are invited to confer with Russick about it.

## Prohibition Declared Success By Temple Baptist Pastor

### SAYS MAJORITY OF PEOPLE IN FAVOR OF LAW

ORANGE, Oct. 28.—Upholding prohibition as "America's noble experiment which proved to be a demonstration," Dr. John Snape, pastor of Temple Baptist church of Orange, spoke here last night under the auspices of the Orange Board of Strategy. Largely attended, the meeting was held in the First Christian church.

The speaker stated that the 18th amendment and the Volstead act are bound together. Prohibition is no longer an experiment, but has become a reality in many ways during the short time it has been in existence, he stated. Prohibition has done a great deal for economics; has brought savings accounts to a new high peak; has brought investment in life insurance to a new high level; has encouraged home building; has aided the automobile industry and has brought a decrease in the death rate, Dr. Snape declared.

"Granted that the prohibition law is not always enforced, neither are many other laws," Dr. Snape continued. "Shall we repeal the others? Shall we do away with the ten commandments because they are broken?"

**Prohibition Success**

"The prohibition law is a success and contrary to wet propaganda of the day was wanted by the greatest percentage of the people. The wets forget that a great percentage of communities in the United States had local option before prohibition ever became a national issue. The 18th amendment was more overwhelmingly approved than the constitution itself, for Rhode Island and Connecticut were the only two states not ratifying the prohibition amendment."

"Nor do these same people who wanted prohibition now demand its repeal, as the wets would have people believe. Nine million farmers do not want repeal; the greatest percentage of school teachers do not; the great mass of the wage earners do not; the Salvation Army does not; mothers do not."

"The evils of intemperance cannot be cured by temperance but by prohibition alone. Those who

complain of lack of law enforcement on the question should do their part by obeying the 18th amendment themselves; by following Judge Ben Bledsoe's creed and taking leave of the hostess who serves champagne, etc.; by making a thorough study of the situation in preparation for answering the sophistry of the wets.

**Wet Propaganda**

"Do not be misled by wet propaganda. It is not true that there is more drinking now than in days of pre-prohibition. In the days of the saloon, it was the usual thing to see drunken men on the streets; now it is extraordinary. The young people are swinging on an age of sobriety, while the middle aged people left over from another era, cause a great deal of the trouble. Drinking is not as prevalent in colleges as it was before the 18th amendment was passed."

In closing, the pastor said that imagination is the granite base of civilization. With it, people get through times like these by stepping out to lean on the rock before they cannot be seen but is there to give support.

**Ministers Present**

The speaker was introduced by the Rev. H. F. Sheerer, pastor of the Orange Baptist church. D. C. Drake, chairman of the Board of Strategy, opened the meeting; J. E. Wilbur led community singing; the Rev. Robert Burns McAulay, of the First Presbyterian church, led in prayer; the Rev. L. V. Lucas, gave Scripture reading and the Rev. Franklin H. Minck of the First Christian church, gave benediction.

Mrs. R. C. Patton directed selections given by a quartet and Mrs. J. Rozelle and D. M. Claypool sang duets.

Announcement was made that the W.C.T.U. can use more assistants in the precinct work which is being carried on with the Board of Strategy office on West Chapman avenue, as headquarters.

### L. A. Man Speaks On Light Rays At Rotary Luncheon

ORANGE, Oct. 28.—C. H. Chase, of Los Angeles, was the speaker at the meeting of the Rotary club Thursday, giving a short illustrated talk on light rays. Mr. Chase explained the difference between the long rays of the ultra violet light and the short rays of the infra-red, also telling of the various colors found in the spectrum.

Cosmic rays, Mr. Chase said, are as yet unexplained by science. It is known that there is a band of cosmic rays around the world, but what they are or how to measure them is not known, he said.

Miss Ruth Sees gave two piano solos and a clever dance and a group of pupils of Holly Lash Vied presented a number of readings and vocal numbers. Chairmen of the day were S. B. Edwards, Charles L. Alt and George Beckman.

### LOYAL WOMEN OF CHURCH TO SECURE FUNDS

ORANGE, Oct. 28.—Making plans for raising \$100 during the next few months, members of the Loyal Women of the First Christian church met all day yesterday in the church. The morning was spent in quilting, and a covered dish luncheon was served at noon.

For this money raising campaign, to conclude January 1, the organization is to be divided up into groups of 10, each contributing a certain amount to the fund. Leaders of the divisions were appointed by Mrs. V. A. Wood, the president, and include Mesdames F. V. Jamison, Charles Carlson, V. D. Johnson, Gladys McDonald and V. A. Wood.

The second Thursday in December, the Loyal Women will have a program instead of a bazaar, so that each group may tell how the money is being raised. It was decided not to serve the customarily chicken luncheon on election day this year.

Members of the nominating committee, Mrs. Moore, Mrs. Grey and Mrs. Grace Strickland, named by Mrs. Wood, are to report at the next meeting.

Announcements were made that an all day meeting of Christian churches of the district is to be held November 1 in Fullerton and that the father and son banquet

is to be held November 18. The day's program included a talk by Mrs. Franklin H. Minck, who told of her trip to Kentucky the past summer. She told also of the progress being made in the mission church in San Diego, where the Rev. P. M. McCluer, formerly of this city, is pastor. Miss Leota Ingle played piano solos, "New Variations of Old Kentucky Home" and "Moonlight in the Birch Woods." Mrs. Strickland was in charge of music for the meeting.

During the business session, the women voted to tie and finish the edges of comforts for a reduced rate for the next two months. Those interested in the work are asked to telephone 154-W for information.

The committee in charge of the luncheon served at noon included Mesdames F. V. Jamison, Charles Carlson, V. D. Johnson, Gladys McDonald and V. A. Wood.

Those wishing to help, are asked to bring the above supplies to the church, parsonage, or to Mrs. E. L. Bennett, president of the local missionary group.

### AMENDMENTS OUTLINED FOR CHURCH GROUP

ORANGE, Oct. 28.—Carrying out the theme selected for the year, that of "Victories of Peace," the Women's Home Missionary society of the First Methodist church met Thursday with Mrs. Edith Scriven as the program leader.

Owing to the approach of election day, of especial interest was the talk given by Mrs. Pearl Kendall Hess, W.C.T.U. leader, on the amendments. Mrs. Hess gave an explanation of the measures which are to come before the people of California on November 8. Mrs. Hess especially emphasized the need of voting "No" on No. 1 and No. 2.

"Jesus, the Good Citizen," was the devotional topic and the topic for the day was "The Victory, the State." Mrs. D. E. Claypool was in charge of the devotional service and two duets were sung by Mrs. Ralph Hull and Mrs. James Winget, with Mrs. Hull accompanying.

Mrs. W. B. Nuckols presided and Mrs. G. R. Scriven assisted. Mrs. Edith Scriven in serving. The latter read a paper of welfare work among school children in Los Angeles.

Plans were made for a supper to be given by the two missionary societies of the church for the Weylayan Service guild November 3.

## Newport Boat Leaves Soon To Get Oysters For Bay

### PROJECT WILL GET UNDER WAY IN NOVEMBER

NEWPORT BEACH, Oct. 28.—The project of "Mexicali," after having been reconducted for the trip, will leave here within the next week, going south into Mexican waters for the first load of oysters to be brought here and planted in the waters of Newport bay, according to information released here yesterday by those interested in the project.

Several days ago Karl Brehme, wealthy Hollister stock man, who is at the head of a syndicate that is financing the project, went to San Quentin bay, which is about 500 miles south of San Diego, to study the habits and health conditions of the oysters found there with the thought in mind of transporting some of them to local waters if the conditions seemed favorable. Members of the state fish and game commission and representatives of the state health department accompanied him on the trip and have pronounced the conditions favorable.

The syndicate, which is composed mainly of Northern California capitalists, some local capital being involved, went into conference with the outcome that a trial of transplanting some of the foreign mollusca into certain marked locations in Newport bay will be made.

Otto Hoffman, vice president and general manager of the company, will be in charge of the work here, having at his disposal for use in the work the "Anadiah," Mr. Brehme's private cruiser, and the two smaller cruisers, the "Mexicali" and the "California," both of which have been rebuilt to comply with the requirements for the work.

Mr. Brehme is at present on a business trip to New York but the work will be carried ahead by his associates here in his absence.

There are 50 children in Barber City who are expected to attend the party. The club has made the children's Hallowe'en party an annual affair.

**FIRE EXTINGUISHED**  
LOS ALAMITOS, Oct. 28.—A fire truck from the State Forestry division at Orange answered a call to a blaze in the 500 block on Howard street Tuesday. Not much damage resulted due to prompt action by Fire Warden C. H. Alexander and his crew. Warning was given that all persons burning trash or weeds use extreme care.

## WINTERSBURG AID GROUP IN PROGRAM

WINTERSBURG, Oct. 28.—Thirty women of the community with others present from Buena Park, Costa Mesa, Huntington Beach and Santa Ana met this week for welfare work.

Two quilts were quilted in the morning. A pot luck luncheon was served at noon and in the afternoon a guest speaker, Mrs. Chisholm Brown, of Costa Mesa, a returned missionary who is interested in welfare work in the county, gave an interesting talk on the Santa Ana Goodwill store. Mrs. Brown asked that any articles that could not be used in this community be passed along to them as people are employed to renovate at the South Main street center.

Members of the Ladies' Aid surprised one of their number, Mrs. Delbert Fox, with a shower during the afternoon meeting, many gifts being presented the honoree. Games were played and prizes

# BOOKS SAYS FAVORABLE OVER SAN DIEGO SLIDES Rivers, Riverside In Vital Jaysee Struggle

By WILLIAM BRAUCHER

Gotham operatives send along the word that the beautiful friendship between James J. Johnston, the old New York boxing commission, is not what she used to be.

The old B. B. was balked the other day in his preparation for a featherweight championship bout between Kid Chocolate and Baby Arizmendi, a rising young Mexican mauler.

The commission discovered, after thumbing through the rule book, that there was a statute which demanded that any foreign boxer ambitious to show his wares in New York must first appear in a bout at a small club.

The rule was passed, it seems, after Johnny Squires, South African heavyweight, and Dr. Ludwig Haymann, from Germany, had been exhibited at Madison Square Garden and it was revealed they knew nothing about fighting at all.

## LOTS OF EXPERIENCE

There was hardly any reason, however, to be suspicious of Baby Arizmendi on that score. The baby, just turned 18, had more than 281 fights, and the Mexican Commission de Box recognizes him as champion. He has been battling since he was seven years old (they start 'em young in Mexico), and among others has beaten Fidel La Barba. The other night the baby beat Newbury Brown in Los Angeles.

It is suggested by the Gotham operatives that perhaps the feud between the old B. B. and Jacques Curley over the promotion of wrestling is beginning to be felt politically. An important Democratic politician is reported to have joined Curley in his war on Johnston. This should lead to hilarious developments and provide the scribes with a great deal of good, clean copy of the sort that takes the newspapers into the back room.

## ANOTHER RIVERS?

The Baby from Coahuila is one of the most colorful little fellows in the ring today. For all his fighting, his face is unmarked, and he wears no cauliflower ear. South of the Rio Grande they call him the greatest boxer to come along since the days of Joe Rivers and Aurelio Herrera. If he has only a little bit of Rivers and Herrera in him, he must be all right.

He talks little English, I am told, and never about fights unless he is asked. In the ring he is all business, an energetic worker. There is an odd sort of nervousness about the baby—he cannot rest in his chair the full minute between rounds, but must sit on his feet 10 seconds before the bell, ready to rush out and mix.

## FIGHTS WAY UP

The boy comes from Torreon, via Pampico and Mexico City. It was at Mexico City that he landed a great deal about fighting, two victories from the United States, Tommy White and Jimmy Platten.

He fought his way up, starting at 80 pounds when he had to meet odds ranging all the way to 115. Early this year he became "Campeo de peso gallo," which is the Mexican way of saying "champion of the rooster-weight class," by beating Kid Pancho. He now weighs 56 kilos, 500 grams, which is about 124½ pounds.

In point of his record and ability, it seems just a little bit odd that the New York commission should force him to fight at a small club where only a few can see him perform.

But maybe it's just statesmanship. You never can tell.

Their offense stopped after a first quarter drive to the opposition's yard line, Frances Willard's junior high school gridlers lost a 26-0 game to Fullerton High's Class B team at Fullerton yesterday.

## LINE STRENGTH TO DETERMINE INLAND VICTOR

Santa Ana and Riverside jaysees have engaged in football relations for several years, but at Riverside tomorrow they'll be entering hostilities for the first time as league opponents, fighting for the same honor—the first Orange Empire conference football championship.

The game will be called at 2:30 o'clock on the turf of Poly stadium, located in the basin of the Riverside high school and junior college grounds, on the right of the highway leading into the inland city from Arlington.

Although downed but once in three years of conference play, and then by Pomona two weeks ago, Riverside has taken three beatings from Santa Ana in practice games, but as a league opponent, tomorrow may break the spell which the Dons hold, 24-0, 12-0 and 13-0 victories in three unofficial meetings.

## Jones vs. Jones

The Jones system, with slight modifications, is employed by both institutions.

Line strength looms as the deciding factor in the tussle-up struggle. Both backfields are strong, equally dangerous, fast and tricky. It will be a battle between forward walls, aided by the backfield's ability to aid off an aerial attack which both elevens are certain to launch at one time or the other.

Free from injuries and ineptitudes, both teams go postwar in fine condition.

Comparative scores cast no light on the contest, outside of the fact that Pomona beat Riverside 12-6 in an upset, and Santa Ana trimmed Pomona 14-6. But the Dons lost to San Bernardino, 7-0, and San Bernardino in turn looked rather weak against Fullerton and Chaffey who beat San Bernardino 12-0 and 13-7, respectively. Riverside showed unusual strength winning from Citrus, 18-13, last week.

## Riverside 58, Opponents 25

Santa Ana tomorrow will rely on the line that started the Pomona game. This combination, looking good in drills this week, includes "Tex" Harris and Tom Carley, ends; "Bono" Koral and Lucius Conkey, tackles; Claude Williams and Captain Jack Fredrick, guards; and Raymond Howard, center.

Toby Greenough, Jim Lash and Fred Brooks have shown in practice that they are capable of starting at end, and all three will be given a chance against the Tigers. Reserve strength at the wing positions has been all that a coach could desire.

## Hollen Declared Eligible

Dick Heffner, Dick Smith, Ray Newberry and Tom Hollen, tackles, deserve a chance, and probably will be inserted in the order named. Hollen, a 220-pound transfer from Los Angeles junior college, was declared eligible yesterday after learning from the Cub institution that he had passed two required examinations.

LeRoy DeMet will be the first substitute at running guard. Other guards likely to get into the game are Harold Benson, Garth Olson, Rodney Hater, Quimby Wallace and Bob Huffer.

Bruce Handy and "Gib" Meisner will alternate at center with Hollen. He passing always more consistent. Hoar has shown rapid

## Mr. Dandlet Admits His Face Is Red

NEW YORK, Oct. 28.—The season's best football yarn reached town today from Marshall college, Huntington, West Va. It happened in the dressing room of the Marshall squad between halves of a game with Western Maryland.

Coach Tom Dandlet summoned his red-blooded vocabulary, unleashed it on a bruising tackle.

"Why the devil can't you play ball, Humphreys? Can't you fight—are you feeling badly—or just what's the matter with you?" he inquired.

"Well, coach, I'd feel better if I had a hamburger," replied the star with a ravishing appetite, "and too—"

"And, too?" asked Dandlet.

"I haven't been in the game yet," said the big tackle.

## U. C. L. A.-CARD GAME FEATURES GRID SCHEDULE

SAN FRANCISCO, Oct. 28.—(UP)—Chief "Pop" Warner's Stanford Indians go Bruin-hunting at Los Angeles tomorrow in the only major attraction of the Pacific Coast conference.

The unbeaten U. C. L. A. eleven presents the second formidable foe the Cardinals have met in eight days. Last week they were beaten 13-0 by U. S. C., the other undefeated member of the conference.

With the strongest team in their history, the Bruins have high hopes of duplicating the feat of their fellow-townsmen as they march on to an all-victorious season.

However, the Cardinals were in a warlike mood when they departed today and it would not be surprising to see them return to their tepee with a Bruin hide.

Washington State meets the battered Montana eleven at Pullman in the only other conference tilt this week-end.

Other conference members engage in so-called "breather" games preparatory to meeting important conference rivals next week when the 1932 season enters the "home stretch."

California entertains the scrappy Nevada university Wolves. Although they tied Utah, Rocky Mountain conference champions the Wolves are not expected to furnish much trouble for the Bears. Most of the California regulars will be in the lineup, however.

Oregon State meets the hefty West Coast Army at Corvallis tonight and Oregon tackles the tough Gonzaga Bulldogs tomorrow.

Washington's regulars will see little service against the weak Whitman eleven, Coach Jimmy Phelan desiring to save them for Stanford next week.

Southern California and Idaho remain idle. The vacant date will provide Coach Howard Jones another week to remodel the Trojan backfield before meeting California. Orville Mohler, sparkplug of the Trojan offensive who was forced to withdraw because of injuries, is sliding Jones in perfecting a new backfield.

Outside the conference, the most important game in the far west will be played in San Francisco Sunday between Santa Clara and St. Mary's. Although the Gaels have won the game for several consecutive years, the Broncos will be almost even better because of the power they displayed this season against Oregon and California.

Another lively battle between two Catholic schools is in prospect at Los Angeles Sunday when Loyola, nipped 6-0 by Southern California, meets the vastly improved University of San Francisco Dons at Wrigley field.

The Santa Ana Hi's lightweights, coached by Clyde Cook, had an off day at Poly field yesterday, and considered themselves fortunate to break even with Orange Hi's Class "C" 6 to 6.

The Saints showed a reversal of the form that beat Brea-Olinda 13-0 and tied Long Beach Poly 6-6.

Scrimmages with Julia Lathrop and Frances Willard junior high schools precede free-lance games with Anaheim and Fullerton, soon on the Saint schedule.

## ROCKNE AND JONES SYSTEMS CLASH IN SAN DIEGO GAME

Tomorrow's Santa Ana-San Diego game will be a battle of systems as well as teams. Santa Ana uses the favorite formations of the late sage of South Bend, Knute Rockne. San Diego follows the policies of the great Southern California coach, Howard Jones.

Santa Ana's coach, "Tex" Oliver, was a West Pointer but he adopted the Rockne system last year after employing at one time or another both the Jones and Warner systems here. San Diego's coach, Hobbs Adams, graduated from U. S. C. where he played under Coach Jones.

Rockne's football theory was to obtain speed and deception as well as power. The Notre Dame system calls for a balanced line, three men on each side of the center, as shown by the accompanying diagram. The system places the backs in a sort of box formation behind the line. The box is not arranged according to right angles, but is irregularly shaped.

The Jones system is harder to analyze than any other. The reason is that Jones has incorporated into his plan several systems. His "squirrel cage huddle" resembles the action of a pinwheel, the players whirling into positions varied according to the type of play. Part of the Jones system is recognized as the Rockne system, part of it as the Warner system, but the major part is the creation of the Trojan coach himself. He

has constantly changed the pace of his attack.

The success of any system depends on the players. They are the ones who make or break any system devised by the human mind. After all, they are the ones who play!

Stoefen, nationally ranked player who holds several decisions over National Champion Ellsworth Vines, will be on the courts at 11 a. m. for a semi-final singles match with H. Briggs.

At the same hour an attractive mixed doubles set-to is promised between Carl Busch and Mildred Ward and the winner of a 10 o'clock match between Mako and Miss Cruickshank and Kenneth Ranney and Twila Heath, the latter an all-local combination.

**Saturday's pairings:**  
9 a. m.—Semi-final junior boys' singles: Varr vs. Gilmore; Wetherell vs. Imhoff.

Considerable discussion has been heard about the possibility of a protest against the Pelton Special, ridden by Cordy Milne. Few riders believe that the machine can be within the 45-cubic-inch limits and travel as fast as it does. It is possible that a protest will be filed with Referee Al Koogler. In commenting on the possibility of such action Milne laughed and said, "Let them protest it and we will tear down the motor for measurement."

Milne is always a contender and while he has failed to dominate at Santa Ana his spectacular rides at San Diego and Los Angeles have made him a favorite with scores of racing fans.

Joe Petrall, National motorcycle hillclimb champion of Milwaukee, and Gene Rhyme, former champion, will attend the races tonight as honorary guests. Several Ascot stars including Babe Stapp, Chet Gardner, Sam Palmer and Ernie Triplett are also expected.

The parade of riders starts at 8:15 followed by the first of 20 events.

## 'YANKS' ANNEX GRID CROWN AT LATHROP

The intra-mural football championship of Julia Lathrop Junior High school was decided in a game between the Yanks and the Green Tornadoes yesterday, the Yanks winning, 20-0. They will be rewarded by a deep sea fishing trip this week-end.

The contest concludes the intra-mural team and more than 100 boys have been participating during the last four weeks. Boys playing on the Class C, D or varsity teams were barred from intra-mural teams.

Next week an intra-mural speedball tournament will be started at the South Main street school. The lineup:

## ANAHEIM 'C' TEAM Captures Thriller

HUNTINGTON BEACH, Oct. 28.—In one of the most thrilling football games ever seen here, the Anaheim "C" team defeated Huntington Beach, 18-13, yesterday, making the winning touchdown on a pass from its own 30-yard line with only 15 seconds to play.

The game was a thrilling contest, with both teams playing hard. The Anaheim team, coached by Clyde Cook, was the victor in this exciting match.

## NET AGES HERE TOMORROW FOR TITLE MATCHES

Swinging into the most attractive half of Santa Ana's first big-time tennis tournament, with only the fittest surviving, Southern California's premier players decide championships in six different divisions here Saturday and Sunday.

Beginning at 9 a. m. and continuing until dusk, matches will be conducted tomorrow at every hour of the day on the Frances Willard courts at North Ross and Fifteenth streets.

The public is invited to these all-star contests, no charge of any kind being levied. The tournament is sponsored by the Santa Ana Tennis club—G. C. Ward, president, and John Cross, secretary—in an effort to promote interest throughout Orange county in the court sport.

Lester Stoefen, Gene Mako, Elbert Lewis, Josephine Cruickshank, Ruby Bishop, Carl Busch and John Alman, leading contenders in the competition, will all be seen in action, and most of these are expected to survive quarter-final and semi-final rounds so they'll be active again Sunday, last and biggest day of the tourney.

Stoefen, nationally ranked player who holds several decisions over National Champion Ellsworth Vines, will be on the courts at 11 a. m. for a semi-final singles match with H. Briggs.

At the same hour an attractive mixed doubles set-to is promised between Carl Busch and Mildred Ward and the winner of a 10 o'clock match between Mako and Miss Cruickshank and Kenneth Ranney and Twila Heath, the latter an all-local combination.

3 p. m.—Semi-final men's doubles: Mako vs. winner Busch-Hutton vs. Alman-Carey.

Considerable discussion has been heard about the possibility of a protest against the Pelton Special, ridden by Cordy Milne. Few riders believe that the machine can be within the 45-cubic-inch limits and travel as fast as it does. It is possible that a protest will be filed with Referee Al Koogler. In commenting on the possibility of such action Milne laughed and said, "Let them protest it and we will tear down the motor for measurement."

Milne is always a contender and while he has failed to dominate at Santa Ana his spectacular rides at San Diego and Los Angeles have made him a favorite with scores of racing fans.

Joe Petrall, National motorcycle hillclimb champion of Milwaukee, and Gene Rhyme, former champion, will attend the races tonight as honorary guests. Several Ascot stars including Babe Stapp, Chet Gardner, Sam Palmer and Ernie Triplett are also expected.

The parade of riders starts at 8:15 followed by the first of 20 events.

The horse sailed on with all its might and cried to Duncy, "Hang on tight. I know my tail will not pull out, so you are safe and sound."

"You asked for speed. That's what you'll get. I'll give you plenty, you can bet. I'm going to sail high up before I head back to the ground."

The other Tynies, down below, began to loudly cry out, "Whoa! Come back and bring wee Duncy. Please don't travel very far!"

"We told the farmer that we would help him get home as best we could. How can we do it, if you are not here to tow his car?"

"Ah, listen to them call for me. I would return, but I can't see why I should not have fun at first," the horse said, with a smile. "This sailing through the air, you see, is as refreshing as can be. I promise that I will not travel more than half a mile."

"Then I will turn back willingly, so they can make good use of

me. When once again I pull that car, don't ask me to run."

"All right," snapped Duncy. "I'll be fair, if you'll just drop out of the air. I will admit that pulling such a load is not much fun."

Just then a great big bird flew near. The horse said, "Have no fear. I'll shortly scare that bird away so he won't snip your nose."

The horse then neighed and scared the bird. Another neigh was shortly heard. The horse exclaimed, "It's hard to fly due to the breeze that blows."

A puff of wind then caught it square. The horse dropped suddenly through the air. "I cannot stop my fall," it cried. "Oh, goodness, mercy me."

Wee Duncy still hung on real tight, just trusting things would be all right. And then there came a plop as they both landed in a tree.

The meeting tomorrow is scheduled as his last appearance in the county before election and is expected to attract a large crowd.

Local Shuler campaign headquarters has completed plans to care for a large crowd at the meeting Saturday in Irvine park. Campaign officials announced today that Shuler is highly elated over the outlook in Northern California and is confident that his vote at the election will exceed that which he received at the primary.

Several radio broadcasts will be made by the candidate and Mrs. Shuler between now and election time. Mrs. Shuler will broadcast from KJH November 2 at 6 p. m.; Shuler will speak over KJH at the same hour; on November 7 from KJH from 9:30 to 9:45 p. m. and both Shuler and his wife will broadcast from KXN each Tuesday and Thursday night from 7:15 to 7:45 o'clock until the election.

A parade of autos of Shuler supporters prior to the park meeting is being planned. All persons wishing to take part are asked to report at the headquarters of office, 420 North Sycamore street, at 1:30 p. m. tomorrow.

### FIREMEN NEED MORE BROKEN TOYS FOR SANTA WORK SHOP

Broken down toys which are to be made over for the poor children of Santa Ana by city firemen are not being donated to the department as fast as the department desires them, it was announced today.

The firemen, who already have started work on them, have more than caught up with their work and more toys are needed immediately. Any kind of broken toy that is lying around the house can be made over by the firemen, and housewives are asked to call the fire department so

that the toys can be collected and taken to the Santa Claus workshop at the No. 1 station.

"The first few days after you published the first story appealing for toys, the firemen received all kinds of toys, but the boys have already repaired them and are waiting for others. The donations have ceased to come in and the firemen are anxious to get started on the work," according to Homer J. McCormick, fireman, who is one of the leaders in the Santa Claus movement.

### OFFICERS BEGIN DRIVE AGAINST FAULTY LIGHTS

Tomorrow is the day set by the California highway patrol, both in this county and other parts of the state, for its annual campaign against glaring and illegal headlights on automobiles. Captain Henry Meehan announced today.

Advices starting the campaign have been received here from Chief E. Raymond Cato, at Sacramento.

The campaign is scheduled to last at least three weeks but will continue indefinitely, unless the evil has been abated by that time, Cato said. It will be directed against glaring lights, "one-eyed" cars being operated with only one light, cars operated without tail-lights, dirty and cracked lenses and all other infractions of the headlight provisions of the California vehicle act.

In general, the campaign will be conducted during the early hours of the evening when traffic is heaviest but "surprise" raids will be conducted at all hours of the night, Cato said.

Every member of the patrol will be required to devote his evenings to the work in addition to his regular duties, the patrol chief said. Citations will be given all found operating in violation of the law.

Declaring many motor vehicle owners may avoid trouble by having their lights adjusted in advance, Cato pointed out that drivers may often eliminate expense by making an inspection of their light equipment.

### LATHROP BANQUET TO BE HELD NOV. 4

Faculty of the Julia Lathrop Junior high school is now making active preparations for the seventh grade banquet for boys and girls and their parents which is to be held Friday evening, November 4, in the Lathrop cafeteria.

Previous to this year the boys and girls have had separate banquets and all students have been invited. This year the committee in charge decided it would be best to combine the two banquets and limit the affair to seventh grade students and their parents.

An interesting program is being planned which will be announced later.

### REASONS FOR PREFERENCE OF M'KINNEY LISTED BY COUNTY STRATEGY BOARD

In a statement issued today by the Rev. Grover C. Ralston, of Garden Grove, secretary of the Orange County Prohibition Board of Strategy, B. Z. McKinney, Democratic candidate for congress from this district, was given the endorsement of that organization in the campaign he is making for election, and characterized as a genuine dry.

In addition to endorsing McKinney's candidacy the Board of Strategy explained why McKinney was endorsed in preference to District Attorney Sam L. Collins, Republican candidate for the same office.

The board's statement follows: "The Orange County Prohibition Board of Strategy has joined with the boards of strategy of Riverside county, San Bernardino county and the Southern California Board of Strategy, in endorsing the candidacy of B. Z. McKinney as candidate for congress from the nineteenth district.

"Our endorsement was given to Mr. McKinney, as a genuine dry and the candidate acceptable to those devoted to the cause of Prohibition and its enforcement. It was given to Mr. McKinney in preference to his opponent, Mr. Sam Collins, because:

"1. Mr. McKinney has repeatedly made public declaration of his opposition to any change in the Eighteenth amendment or its enforcement acts. He has remained unwaveringly with that course, REGARDLESS OF STATE OR NATIONAL PARTY PLATFORMS and has, in fact, exhibited courageous loyalty to the dry cause in an outstanding manner.

"2. When Mr. Collins ran for district attorney two years ago the organized dry forces of Orange county felt he was out of sympathy with their program and they very bitterly opposed his election to that office. He has been district attorney for nearly two years and his conduct in that office has not caused us to change our opinion and we still feel from recent investigation that he is out of sympathy with the prohibition movement, both in his personal habits and otherwise.

"3. Mr. Collins has made no public declaration on the issue, except his declaration that he stands on the Republican platform, which includes a 'resubmission' as repeal. Therefore, we must regard Mr. Collins as standing for repeal of the Eighteenth amendment. It is true that his uncle (by marriage), Mr. C. C. Chapman, has endorsed Mr. Collins, and claims he is 'dry.' It is also true that Mr. Chapman was primary campaign manager in Southern California for Senator Samuel Shortridge, who voted for the 'beer bill' in congress, was for the submission of the Eighteenth amendment, and while Mr. Chapman may be personally 'dry' he hasn't hesitated to support wet candidates."

### Charge Fraud In Auto Sale Deal

Charging fraud and misrepresentation in connection with the sale of an automobile last June, R. E. Keith and his wife, Mrs. Myrtle N. Keith, of Long Beach, have filed suit in superior court naming the Cadillac Garage company of Santa Ana, John T. Van Why and George H. Fogle as defendants. The suit is demanding judgment for \$1970, the alleged difference between what is claimed the reasonable value of a sedan purchased from the company and the value as represented at the time of the sale.

### Santa Ana Student Aids U. S. C. Play

## Wedding Anniversaries Are Incentive for Garden Supper

Anniversaries of their wedding days were celebrated very delightfully this week by Mr. and Mrs. E. E. Ulrich and Mr. and Mrs. Arthur Kubitz, by entertaining a score or more friends at a steak bake in the pretty garden of the Ulrich home on Lemon Heights.

It was the twenty-second anniversary for Mr. and Mrs. Ulrich, while Mr. and Mrs. Kubitz had been wedded exactly half that number of years. In honor of the shared date, they planned a most enjoyable evening for their friends, greeting them in the garden where tables were arranged to the radiance of many electric lights, while Jack o'lanterns glowed from among the chrysanthemums and cosmos of the borders.

Steaks were prepared over the grill, and enjoyed with a variety of dishes prepared by the guests, and ending with a dessert course of ice cream and cake.

Some of the guests preferred the amusement program in the garden for the remainder of the evening, while others sought the rock tables arranged in the living room. But all came together again to enjoy the home-made candy, popcorn and apples served at the evening's close.

## Contemporary Works In Drama, Music To Be Studied

A puppet show and a demonstration of the art of applying theatrical makeup were among features planned for the next meeting of the Junior Ebell Music and Drama section at its gathering Tuesday night in Ebell clubhouse. Mrs. Frank L. Andrews, Jr., leader, assumed charge of the discussion of future plans and presented the evening's performers.

A summary of the chief characteristics of American music and of the principal figures contributing to its composition, presented by Miss Georgia Walton, afforded an apt introduction for the trio of American songs sung by Miss Hilda Lemboke of Orange, accompanied by Mrs. Lea Pemberton of Anaheim.

The most notable developments in contemporary American drama were reviewed with equal closeness by Mrs. Leland Finley, who cited Eugene O'Neill as among the foremost native exponents. There followed a skit of which three pupils of Holly Lash Viesl, the Misses Emma Williams, Virginia Rogers and Neva Faye Gerdes comprised the cast.

Miss Mary Bowyer and Miss Georgia Walton were entrusted with the arranging of the dramatic and musical aspects of forthcoming sessions and they indicated that both musical numbers and a paper would have a place on the next program. It was agreed to change the meeting date from the fourth Tuesday night to the second Tuesday night of each month, the Book Review section of the club having arranged this year's meetings for third Tuesdays.

Present Tuesday night were Mesdames Frank L. Andrews, Jr., Leland A. Finley, Frederick C. Elliott, Robert S. Wade, George Walker, Lynn Crawford, Miss Mary Bowyer and Miss Georgia Walton, members, and Mesdames R. Hoffner, Carl Wiseman, E. W. Swift, Henry Williams and Walter Hill guests.

A double hospitality, taking the form of twin contract luncheons and extended some 40 guests, was concluded yesterday when Mrs. George S. Briggs and her daughter, Mrs. Howard Timmons, entertained the second of two groups of guests at the Briggs home, 644 North Broadway. The earlier affair, which also had its setting in the Briggs residence, occurred Tuesday.

## Music Classes Will Celebrate Holiday

In accordance with a custom of several years' standing, Miss Arline Birchard, 2408 Hilltop drive, is celebrating the Halloween season with two pleasant social affairs for her younger piano pupils and their mothers.

The first of these will be for the group of eight little Santa Ana girls who are banded together as the Magic Music club, who with their mothers and Miss Birchard, will motor to Laguna Beach for a program of nature music study. Appropriate Halloween appointments will be apparent in all details including refreshments.

On Saturday afternoon, the Blue Bird Music club and the Hi Music A club, composed of 15 boys and girls from Miss Birchard's piano classes in Midway City and Westminster, will give a Halloween musical party in her studio home. Pumpkins and black cats will be used in decoration, and Halloween dainties will be served.

## County Organization Is Entertained by Anaheim Hosts

From Santa Ana, Fullerton, Anaheim, Costa Mesa and practically every community of the county, were assembled the guests who on Wednesday night enjoyed the hospitality of Mr. and Mrs. F. N. Gibbs in their home, 929 Center street, Anaheim.

It was the October meeting of the Lip Reading classes of Orange county, and some 40 members enjoyed the evening, which opened with the business session conducted by Mrs. Hush Osborn, president of this unique group. Several officers were introduced as serving the different clubs, and included Mrs. Mackey of Fullerton; Mrs. Bruns and Mrs. Gibbs of Anaheim; Mrs. John Wehrly and Miss Pauline Parsons, Santa Ana secretary and treasurer.

The business meeting continued with the reading of the constitution of the League of Hard of Hearing, and amendments were added to make it satisfactory to the county organizations. Business was concluded with this feature, and a party committee, so that the games and fun were soon in full swing.

The climax of enjoyment was reached at the refreshment hour when individual pumpkin pies topped with whipped cream, were served with coffee. Everyone then joined in singing various old time songs, closing with the old favorite, "Good Night Ladies," sung by a chorus of men.

## Royal Neighbors

A program in keeping with the Halloween season was given at this week's meeting of Royal Neighbors of America held in M. W. A. hall. Black and orange streamers, pumpkins and other symbols of the coming day of celebration were used in decking the hall for the evening.

Mrs. Elva Crawford, orator, presided. Announcement was made that members of the local camp have been invited to attend a Halloween party Saturday evening at 7:30 o'clock in the home of Mrs. Goldie Cornett in Garden Grove. Those attending are to wear gingham gowns and overalls. It was announced that on their last meeting night in November, Santa Ana Royal Neighbors will entertain members of the Long Beach camp. The newly formed club of the local organization will meet Friday, November 4, at 7:30 o'clock in the home of Mrs. Elva Crawford, 417 East Walnut street.

During the evening, Halloween games were played. Little Wilva Yarbrough gave readings; Mrs. W. C. Dunlap read a ghost story; guitar selections were played by the Jesse brothers. After musical games had been enjoyed, Halloween refreshments were served.

Mrs. Kate Hendricks, who celebrated her 87th birthday anniversary, was presented with a birthday cake by Mrs. Flora Delbee.

## Christian Endeavor Has Gay Costume Party

A delightful Halloween party was held Tuesday evening by members of the Young People's Christian Endeavor society of the United Brethren church, who were guests in the home of Miss Evelyn Dennis, West Pine street. The orange and black theme used in decorating the home made a striking background for the guests who arrived dressed in appropriate costumes.

All of the merry games played had been chosen to suit the occasion, with Miss Dennis and Miss Naomi Sande as chairmen of this feature of the party. Refreshments served included delicious homemade cookies and cider.

At the close of the evening, Mrs. Percy Gamell conducted a devotional service on "The Christian's Heavenly Home." The Bible lesson was taken from the 14th chapter of John, and short prayers were given by members of the society.

Members and friends taking part in the affair included the Misses Gertrude Raymond, June Morgan, Marlene Shaley, Marjorie Van Horn, Eliza Walker, Alice Wiles, Mary Hengstler, Elizabeth Stafford, Elsa Walker, Naomi Sande, Evelyn Dennis, Naomi Dennis, Marjorie Dennis; Messrs. ## Tavern Tatlers Enjoy Views of Oxford

Over 100 slides of Oxford university were shown Tuesday evening at the regular meeting of Tavern Tatlers held in the junior college library. As the pictures of the colleges, the campuses and the town of Oxford were projected, Thomas H. Glenn, head of the English department, told personal experiences at Oxford several years ago when he was a student there.

During the business session a amendment to the constitution was made to the effect that new students will have to attend school only one month instead of a quarter in order to become eligible for membership to the society. Discussions of the first issue of the Tavern Post this semester took place and it was announced that material would be secured at once. Names of new members were accepted and more will be voted upon at the next meeting to be held on November 8.

## Native Daughters

West and Mrs. Walter Hickey were members of the committee in charge of the entertainment and refreshments served following. Cards were enjoyed following the business session.

## The MIXING BOWL by ANN MEREDITH.

### This Dish is a Century Old

The author of yesterday's Butterscotch Pie says she has a contribution "to the cause." One is for baked onions. . . a very swanky article when it reaches the table. Take two large Bermuda onions, peel and slice them into a shallow buttered baking dish. Salt and pepper them, season with one teaspoon sugar and one tablespoon butter. Bake very slowly.

The next offering this young lady makes is her mother's recipe for what she calls "Rocky Mountain Apple Pie." This is known the world over, always under a different name. I've had it sent in by women whose ancestors brought it from Holland a century ago.

Cut the apples in rather thick pieces and set them in rows in an unbaked pastry shell. (Thick together, well crowded.) Make a custard out of two eggs beaten with a large cup of rich milk and two-thirds cup sugar, some nutmeg and a pinch of salt; pour this over the apples, cover top with a lattice of pastry and bake in a medium oven until pastry browns, then in slow oven until custard and apples are done.

### TODAY'S RECIPE

#### Emergency Dessert—Hot Fruit Custard

4 eggs, whites beaten stiff  
1 cup sugar  
Juice of 3 oranges and  
1 lemon

8 tablespoonsful of apricot jam  
A birthday dinner came bobbing up in my house on short notice and that is how this dessert came into being. I had neither time to bake a cake nor go down town and buy one, yet the occasion demanded something just a bit special and partylike, and believe me, this is it in no uncertain terms!

After your dinner is all ready to serve put on the double boiler—a small one—and when the water is boiling in the bottom put the strained fruit juice in the top to heat. Separate the eggs and beat the yolks with the sugar until they are foamy and thick. As the juice gets to this scalding point stir in this mixture and keep on stirring until it cooks to a custard.

The time of adding the stiffly beaten whites depends on who is serving. If someone is in the kitchen they can be added right now and well whipped into the cooking custard for a matter of

five minutes. If you have to be cook, hostess, and waitress in one, just set the custard kettle off the hot water part and eat your dinner in peace, nip into the kitchen before you clear the table, set the kettle back over the boiling water and stir in the beaten whites—a minute mixes and cooks them, y' see.

In your swankiest sherbet cups put a tablespoonful of apricot jam, pour the hot custard over the jam and serve at once. Cake is

nice, cookies also, but like the lily, this needs no embellishment. The recipe serves eight nicely.

There is a trifle over 300 calories in each of the eight desserts. Naturally, so much sugar puts this dessert definitely in the energy-making diet.

Who cares about a little extra energy in the shape of such delicious desserts when they know that in the offing I have a life line to throw out—the 21-DAY DIET RECIPES.

The diet was offered free last week; this week the recipes used in it may be had free of charge by sending in a stamped, self-addressed envelope for mailing purposes.

Saturday's recipe will be a Sour Cream Cake and a clever way I saw it served.

## Women's Forum Meets For Luncheon and Talks

An interesting meeting was held Tuesday at noon by members of the Women's Forum, who met in the Doris Kathryn Tea Shoppe for luncheon. Sixteen members and a special guest, Mrs. C. B. Harper of Orange, attended.

Mrs. Arthur May was toastmistress for the day, introducing Dr. Hester O'Leary, whose subject was "A Challenge to the After Dinner Speaker." During her talk, she stated that toasting started with the invasion of Julius Caesar, and that the name, "toastmaster," is all that remains of the old toasting.

A toast to Franklin D. Roosevelt was given by Mrs. Martin Carlson. Mrs. T. P. McKee discussed "The Life of Herbert Hoover," after which Mrs. John Clark, club critic, talked on "Believe it or Not."

Mrs. Fred Harrison, Mrs. Graves and Mrs. A. F. Granas were appointed members of a committee to review the by-laws of the forum.

The next meeting will be held Tuesday noon, November 8 in the Y.M.C.A.

## Do this for Your Child in

## TWO WEEKS

How to rid any boy or girl of sluggishness or constipation and build a big appetite.

The trouble with children who will not eat is usually *stasis*. The symptoms are a tongue that's always coated, bad breath, poor color, dull eyes that are often a bilious yellow. No appetite, no ambition—even for play. Hard to get to sleep, hard to wake in the morning.

There's an absolute remedy for this condition. It gives listless youngsters the appetite and energies of a young animal! They eat! They gain! They keep well!

## The California Treatment conquers Sluggishness

It's not the stomach, but the bowel condition that keeps children from eating. But the trouble is in the lower bowel—the colon. California syrup of figs is the only "medicine" that is needed to stimulate the colon muscles. The very next day, your child is eating better and feeling better. Keep on with the syrup of figs a few days and you will see amazing improvement in appetite, color, weight and spirits.

Any drug store has the real California syrup of figs, all bottled, with directions. Nature never made a nicer acting or nicer tasting laxative. (It is purely vegetable.) Remember California syrup of figs when sickness, a cold or any upset has clogged a child's bowels.

### WARNING

Even when it's something to give children, some stores will try to substitute. So be sure the bottle says CALIFORNIA Syrup of Figs.

## 200 HEAR TALK BY STATE HEAD OF SOCIALISTS

COSTA MESA, Oct. 28.—Two hundred people attended the Socialist meeting held Wednesday night at the grammar school auditorium with Charles L. Heiser, state organizer for the Socialist party, and an economist, speaking on the subject, "The Road Ahead: Promise and Danger."

He declared that capitalism is condemned that through the present system, the great middle class is rapidly passing, leaving only the capitalist and workers' classes. Socialism was cited as the remedy to end unemployment.

He urged unemployment insurance, with funds to be derived from incomes and inheritance taxes. Milwaukee was cited as a city where taxes were low and debts small even in times of depression, as run by Socialists, while Denmark and Vienna, Austria, were given as examples of Socialist ideas used in practical operation, and a success in these times. The Republican and Democratic parties were placed in the same category and reported as entirely in the hands of big business. The paramount issue is not beer, but bread; not jobs, but jobs, he said.

## FOX THEATERS TO CELEBRATE "HALLOWE'EN"

Special Halloween features for both the Fox Broadway theater and the Fox West Coast theater here tomorrow night were announced today.

At the Fox West Coast theater, a special midnight show will be staged starting at midnight, with the doors open at 11:45 p. m. Special stage attractions will be offered together with special screen shows.

The Broadway theater will stage a special preview Saturday night in connection with the big picture showing there now, "A Bill of Divorcement" with John Barrymore. The name of the preview has not been announced, but the cast of actors in this strange melodrama is enough to guarantee an unusual performance and due to the fact that it is in keeping with spooks and goblins, needless to say it is a strange, almost ghastly production.

With vaudeville at the West Coast theater for the remainder of the week, it was no trick for Eddie Graham, manager, to make arrangements for a cabaret show for the midnight attraction tomorrow night. Aside from that, the stage will be used for free dancing by the public, with the West Coast orchestra furnishing the music. And, Graham doesn't care how long the dance lasts either, after the performance is over. "We are going to have a great midnight show, with spooks and witches 'n' everything," he said today.

## NEW REAL ESTATE FIRM ANNOUNCED

Formation of a new firm, Hawks-Van Drimlen, in a partnership real estate business was announced today. The new firm will have offices at 304 1-2 North Main street in the West Coast Theaters building.

Both men are well known in Santa Ana. Earl E. Hawks, realtor, was formerly in business at 314 West Third street. He is treasurer of the Santa Ana Realty Board, commander of Jack Fisher chapter, Disabled American Veterans of the World War, a member of the local Legion post and Calumet camp, U. S. W. V. He left the service after the world war with the rank of a major. He belongs to four branches of the Masons.

R. J. Van Drimlen, Jr., his partner, has been an active member of the Realty Board. He was formerly with Carl Mock for four years but has been alone at the new firm location for about a year.

The firm will handle loans, rentals, groves, city property and general real estate lines.

## WANTED TO GET RID OF 'RED BOX'

A man walked into the police station late yesterday, carrying a red metal box.

"I was driving down the road a while ago and was stopped by some police officers. They put this box on the running board of my machine and told me to drive carefully. I did, but I don't want this box on my car," he said.

C. L. Neuwanger, sergeant in charge, had seen the "red boxes" before. "Just leave it here, we'll take care of it," the man was told.

After he had gone, Neuwanger called up the California Highway Patrol office and informed them that one of their brake testing machines could be found at the police station.

And thus it goes.

Managers of the Collins campaign here have received a written endorsement for their candidate from Ross Shafer, of Tustin, president of the Orange County Associated Chambers of Commerce and prominent citrus grower.

"At this time when so much half baked theory is being foisted upon the American people, in the guise of legislative panaceas for our every ill, I think it highly important to send tried men to our law making bodies," Shafer wrote of Collins. He concluded with the statement that "voters of all parties should rally to Sam Collins in the interests of good government."

## Come on up to the Height of health

YOU'VE enjoyed days where every minute was filled with the richness of living. You looked your best, and felt your best. Why not live more of these healthy, happy days?

One of the chief causes of poor health—and consequent unhappiness—is common constipation. It may bring headaches, loss of appetite and energy. Yet it can be overcome by eating a delicious cereal.

Laboratory tests show that Kellogg's ALL-BRAN provides "bulk" to gently exercise the intestines, and vitamin B to further aid regular habits. The "bulk" in ALL-BRAN is similar to that in

leafy vegetables. One ounce of ALL-BRAN furnishes as much vitamin B as five ounces of orange juice. This delicious cereal also contains twice as much blood-building iron as an equal amount by weight of beef liver.

Two tablespoonfuls daily are usually sufficient. With each meal in chronic cases. If not relieved this way, see your doctor. Tests show ALL-BRAN does not lose its effectiveness with continued use. How different from pills and drugs—where dosage has to be constantly increased. Ask your grocer for the red-and-green package. Made by Kellogg in Battle Creek.

"When you're healthy, you're happy"  
"How you feel — and how well you look — depends largely upon the food you eat.  
Be sure your diet is balanced — with sufficient 'bulk' to promote regularity."

## DR. BARROWS ON MEASURE NO. 9

We are in receipt of an article signed by Dr. David Prescott Barrows, professor of political science, and former president of the University of California, on initiative measure No. 9, providing for a constitutional amendment. It is such a succinct statement upon the issues involved, and coming from such a well known educator, that we believe it is worth passing on to our readers rather fully. He says:

This initiative measure proposes to transfer a further proportion of school support from the counties to the state. Its announced purpose is also to reduce local taxes on real estate and personal property. The latter object may be desirable, but there is reason to believe that this initiative measure would leave our tax system—and ultimately our land tax burden—in a worse situation than we have already.

The measure increases the cost of education and compels the state to find the additional money. The people of California have been notably generous and far-sighted in their provision for education. Wisely or unwisely, they have written their tax obligations for education into the Constitution. This measure adds to the body of mandatory, inflexible fiscal provisions which already characterizes the Constitution of California.

American incomes have been sensationally lowered, and they will remain low for a term of years. Under these circumstances, economy in government is the duty of the times. There is no real relief from the present excessive burden of government in a measure such as this. The mere transfer of \$50,000,000 of expenditures from the county to the state does not mean relief in the costs of government. Rather it augments these costs. It does not assure the mitigation of burden to those least able to contribute. It does not guarantee any limits in the costs of county government, but simply leaves a vacuum in the total of local expenditures which may be quickly filled again by injudicious and over-zealous demands.

The measure increases by about \$50,000,000 the amount of state expenditures at a time when the state budget, according to the director of finance, is already in a deficit of \$12,000,000 a year. There is reason to believe, from estimates made of prospective revenue from income and sales taxes as required by this amendment, that the state income would then still be insufficient, and there would be no recourse but a state ad valorem tax on property. This would defeat the very purpose of this amendment and force the state back into its old position of deriving its income from the same sources as county and local government.

A fundamental objection to this proposal lies in the fact that it is an interference with the function of the legislature. Taxation is a legislative responsibility which cannot be competently discharged as long as it is continually embarrassed, limited, and disordered by initiative proposals. The reform of our tax system is the most important problem facing the next legislature. The legislature has given the task long examination and has supported expert investigations. These studies are now in the hands of our elected representatives. The responsibility for giving us a good law rests upon the Legislature of 1933, and it should be kept there. The passage of this measure would make the coming task exceedingly difficult and perhaps impossible. If there are wise suggestions in proposition No. 9, they are within the competence of the legislature to adopt; and it is a fundamentally sound principle that in fiscal matters the action of representatives clothed with legislative responsibility by their fellow citizens is better than action of irresponsible and officially unrepresentative bodies such as have drafted and are supporting this proposed law.

## DEAN SHAILER MATHEWS RETIRES

A few days ago the news dispatches carried the announcement of the forced retirement of Amos Alonzo Stagg of Chicago University. This news enlisted great interest. It is probable that in some capacity Mr. Stagg will be retained.

The application of the rule, however, of the forced retirement of members of the faculty at 70, forced out another noted man, and as famous in his field as Mr. Stagg is in athletics. But it was not carried in the news. We refer to Dean Shailer Mathews, who has been at the head of the University of Chicago Divinity school for the last 25 years. He is in the height of his power today as Stagg is at the height of his. Physically and intellectually, he is as well equipped to carry on probably as he ever was in his life, with the confidence and love of all those with whom he associates and for whom he has been working.

President Hutchins said, in announcing the retirement of the two men: "The university has the greater regret that two of its distinguished members have reached the retirement age. Both have exerted a notable influence in their long service." In the case of Mr. Stagg, the country was greatly aroused, and it appears that a special dispensation will be granted so that he will continue in some capacity and as coach at Chicago.

We have not noted the same manifestation of interest among the graduates in the case of Dr. Mathews as with Mr. Stagg, and he will be free to take up other lines of work to keep his mind and body in activity for his own good and for the good of others.

It brings to mind how we tend to over-emphasize certain factors of activity. We recall on the announcement of the death of a noted film star and the president of one of our big Eastern universities, some years ago, that the university president's sketch was almost crowded out of the newspapers in the number of columns that were used in the story of the film star. But today, in recalling it we remembered the name of the college president, and we had to refresh our memory to be sure of the name of the film actor.

These cases are not entirely parallel, except in our over-emphasis, possibly on athletics, because Mr. Stagg has had as great an influence upon character building of the young men leaving Chicago University, certainly as has Dr. Mathews. His all-around ability aided in making his fame secure. But his was the name that carried the news.

## MR. FORD CAN'T VOTE

It is to be noted that Henry Ford will not be able to vote for President. He did not register nor did Mrs. Ford. Mr. Ford was appealing to the people to vote for Mr. Hoover, but he evidently has been too busy to tend to the little details necessary to be sure of his own vote. He undoubtedly regrets it, but on such an important national election, his own personal obligations should have caused him to register.

Mr. Ford believes that the interest of the country lies in the election of Mr. Hoover. The common people are more and more coming to look upon political activity as big interests have looked upon it for many years. They have considered it from the standpoint of business, and have supported that side which they thought was for their financial interest. And sometimes fearing reprisals, they have supported both sides.

The mass of the people, as a rule, have been influenced by what they believe is "for the good of the country," but more and more, in our highly organized society, we have come to think that the "good of the country" means our own personal good. And in this election, people will vote in harmony with that idea pretty generally.

Here in our citrus belt, those who are raising citrus fruit are tremendously interested in the tariff upon lemons, etc., and we realize that we have had a higher protection under a Republican tariff law than we had under measures engineered by the Democrats. In consequence of which, the votes will be cast for those whom it is believed will have the greatest likelihood of power in sustaining this protection.

Mr. Ford can have the satisfaction of knowing, at any rate, that he has influenced thousands of voters for Mr. Hoover.

We were greatly interested in another statement made by Mr. Ford over his own signature. It was this: "If booze ever comes back to the United States, I am through with manufacturing. I would not be bothered with the problem of handling 200,000 men and trying to pay them wages which saloons would take away from them. I wouldn't be interested in putting automobiles into the hands of a generation soggy with drink."

If Mr. Ford means this, and we have no doubt he does, it would have a serious effect upon business, though we presume that some of his competitors might even rejoice in it.

It's remarkable how many candidates discover during a political campaign that they have been farmers all their lives.

## NEW SHOVEL DISPLACES WORKERS

A new shovel has just been built by a company in Marion, Ohio, to be operated by electricity and by a single man, which can take in one shovelful 27 tons of earth and deposit it 200 feet away, and even on top of a seven-story building, if needed. It is to be used to raise the covering off a coal mine, and then in turn it will pick up the coal in great quantities.

It is probable that this machine will do the work of not fewer than 5000 men. And if 5000 men owned it, they could practically sit in idleness from the profits it might make. The difficulty is, however, that the 5000 men will sit in idleness, but they will receive no profit from this. The owner, and the man who profits from it, will be busier maybe than ever before, with the multitude of duties and obligations, because this does not displace his labor. It displaces the other fellows.

## Fifty Million Candles to Light Golf Course

Riverside Enterprise

Fifty-three years ago came the first public outdoor lighting, when Charles F. Brush set up 20 carbon arc lamps around the public square in Cleveland and citizens came by the thousands, wearing smoked glasses to protect their eyes. As the newspapers reported the next day, "a dazzling glory filled the park."

It is a big jump from that demonstration, but probably a natural and inevitable one, when the Ingleside golf course, near San Francisco, is illuminated by floodlights of 50,000,000 candle-power for night playing. This seems to be the climax, so far, in artificial lighting for night sports. It is a much more difficult understanding to light a golf course than a football or baseball field.

The effort is reported as successful. Banks of floodlights are placed at the tees, and at points along the fairways, throwing their beams in the direction of the next green and amply covering the distance. It is easier to follow the ball with the eye, lighted as it is against the darkness beyond, than to follow it by daylight. There is said to be twice as much light on the fairways and in the rough as is ordinarily thrown upon an office desk.

## Diamonds in Illinois Came With Glaciers

San Bernardino Sun

According to Henry W. Nichols of the Field Museum at Chicago, there are diamonds in Illinois—lots of them. He submits in proof diamond flakes collected around the state as part of an exhibit of native minerals.

The diamonds are not really native, he admits. They were shoved in by the glaciers, and are found in the terminal moraines. But inasmuch as they have probably been there from 20,000 to 50,000 years, they evidently have as good a claim to nativity there as any of the human natives.

There is gold in those moraines, too, and miners with patience enough might pan it out of the gravel.

It would pay better, though, if the miners would trace the diamond chips and gold back to the rock beds they came from, in Canada. The Canadians themselves are occupied in that quest.

As a matter of fact, geologists say, almost any mineral can be found, to some extent, almost anywhere. This old world has been pretty thoroughly mixed up.

## More Truth Than Poetry

MERELY A SUGGESTION

On learning of the renewed effort to elevate the screen Use discretion, Messrs. cinema producers;

Don't deprive your silver screen of thrill and throb. Leave the higher education

Of the people of the nation To the gentlemen already on the job.

And the "speakers" may be somewhat shy of culture. And are written, I suspect, to please the "hick."

If they rarely are intriguing, If they are not a bit fatiguing,

And provide one with a pleasant mental kick.

You can never hope to cope with Mr. Shakespeare, Who could build a lofty classic on a crime,

And, with scenes of blood and thunder Wake the vast admiring wonder

Of the most disdainful critic of his name. HE could get away with what you mean to try to,

He could make his heroes rave, but never rant, Writing lines so deft and clever

That they're bound to live forever, Which is something that your brightest authors can't.

So you'd better stick to gangsters, crooks and cowboys, And let slim and greedy sirens do their stuff;

Don't be troubled if the highbrows Lift their disapproving eyebrows.

For they probably, at heart, prefer 'em rough. Use the methods, which, since "speakers" were invented,

Have brought streamers of dollars flowing to your till; Never mind too lofty scoffers;

You know how to fill your coffers, And I never doubt an instant that you will.

## HOPE

We look forward to the time when, if a person refers to the great depression, he'll be talking about the Grand Canyon.

## PARAGRAPHS

By Robert Quillen

The sales tax makes the ultimate consumer knowingly pay the tax he now pays without knowing it.

There may be some change between now and November, but it won't help much unless it reaches the voter's pocket.

Issues are so mixed that you can't tell whether a man is voting to soak the rich or his tonsils.

Chances are that some of the R. F. C. loans will liquidate themselves the way Stalin liquidates rich farmers.

Speaking of tax-free securities, what's the sense of hunting a bear if you first arrange a scheme for him to get away?

THE FUNNY THING ABOUT US IS THAT WE DEMAND A MIRACULOUS CURE FROM A POOR M. D. WHO SUFFERS HELPLESSLY WITH THE SAME AILMENT.

Isn't it strange that a man who has no weapon always reaches toward his hip pocket just when somebody wishes to kill him.

AMERICANISM: Suffering mortal hurt because government spends too much money; trying every kind of remedy except the simple one of stopping the spending.

You can't expect public business to be conducted as private business is. It is so much more risky to take bribes.

The funny part of it is that taxpayers vote for a Congressman who takes their money to buy the votes of another group.

What a world! Thousands spent to save a flyer who deliberately risks his neck, and nothing for the fellow who is in a bad fix through no fault of his own.

WHAT A WORLD! IF YOU EAT THOUGHTLESSLY YOU DON'T GET ENOUGH VITAMINS, AND ANXIOUS THOUGHT GIVES YOU INDIGESTION.

They aren't really government land banks. It isn't your fish trap just because you lend John Doe the money to build it.

It isn't hard to win votes. You just say: "You poor fellow! It was shameful for those guys to treat you that way."

The hardest part of stopping Treasury raids is to find somebody qualified to throw the first stone.

Of course society is to blame for the Insull mess, as it is for juvenile crime. People shouldn't have offered temptation by being suckers.

CORRECT THIS SENTENCE: "I CAN NAME A DOZEN TAXES," SAID THE SPEAKER. "THAT ARE PAID BY THE RICH AND NOT PASSED ON TO THE POOR."

## Thoughts On Modern Life

By GLENN FRANK

### MEN WE MUST NOT FORCE

Yesterday I spoke of the current debate about The Forgotten Man. I made two points about this "forgotten man" who is reality to some and myth to others.

(1) I suggested that a misuse of this phrase may easily degenerate into demagoguery through emotional attacks upon economic leadership as if it had forgotten the man at the bottom of the economic pyramid through sheer perversity and callousness.

(2) I suggested that the intelligent use of it might help to keep business and industrial leadership reminded of the fact that the man at the bottom must never be forgotten since the buying power of the masses is the only wholly dependable life insurance for the industrial system.

Today I want to turn from The Forgotten Man as William Graham Sumner or Franklin D. Roosevelt has spoken of him, and consider some men who must not be forgotten.

We must not forget the man whose chief stock-in-trade during the campaign is the red herring.

We must not forget the man who thinks it is good business to water and rewater the stock of an economic enterprise until it ceases to be a sturdy structure that can withstand storm and stress when

the economic skies darken for a time. We must not forget the demagogue who would disrupt the spirit of a people for his own selfish advantage.

We must not forget the politician who is content to be a weathercock, changing his position with every change in popular whim.

We must not forget the over-professionalized public servant whose job or bureau or department has become, to him, an end in itself instead of a means to an end.

And—however great the necessity for economy—we must not forget the army of devoted men and women whose service is giving light and value to our civilization. We must not forget the teacher.

We must not forget the nurse. We must not forget the doctor. We must not forget the scientist.

All these—the ad servants and the good servants—may so easily become forgotten men.

I nominate, then, for a place in our interest The Forgotten Man.

I nominate, then, for a place in our interest The Remembered Man, is quite as important to our future as The Forgotten Man.

### TYPING

Instead of scrapping your old typewriter give it to a child who has not yet gone to school. It will get more fun out of it than you can imagine. In the first place the thing moves. It does something when you make it. So many toys won't do a thing no matter how hard you try to make them say something or do something for you.

It is great fun to punch a key and see a letter leap up on the paper. It is a great discovery, this printing business. First you make letters, lines and lines of them. Then you make words and one fine day you write a story and read it to your grandmother or aunt or your mother, if she is not too busy at the time. It must be read red hot if one is to get its true flavor.

Little children ought not to try to write with a pen or a pencil. They can make marks and draw a little but writing a line of a story is too much. Typing is no effort at all. It makes no demand upon the still undeveloped muscles of the hands. It is all great fun.

Children who are compiling note books for school work enjoy using a typewriter. The notes are clearer, they look better, they are easier to use. A book full of scrawly writing is not inviting.

The eyes are repelled. Eyes know by sad experience that sheets of handwriting are wearisome and they will avoid them if they can. Grownup people say that it is just laziness that prevents children from studying their notes, but I think it is tired eyes and an over-fatted taste. Beauty attracts and there is something of beauty in a sheet of typing that is usually lacking in a sheet of handwriting. The fountain pen is fine for the rough notes but there is nothing like the typewriter for the permanent form.

High schools often have commercial classes where typing is

taught but they are deferred too long for children of the upper elementary grades and these are the ones who would benefit by their use. Handwriting ought to be an art. It should be practiced as an art. When children have to take hurried notes and then transfer them to their books for future use, the art suffers along with the eyesight.

How are we to get the machines? They are expensive and bulky and demand care. Well, they make good Christmas gifts. If a benevolent uncle or aunt was searching for a happy gift for a beloved niece or nephew, a typewriter would be just the thing. It need not be a new one. A made over one will answer nicely. The toy typewriters for little children are fine and can be used to good advantage. But the full sized one is always best. Maybe you have an old one at the office. Maybe you feel like donating it to the school, or to the club, or to some favorite child friend.

There is no danger that the machine will spoil a child's handwriting. That is more often spoiled by scribbling notes in a hurried lecture hour, in a lengthy home work lesson, than in other ways. Art is long and school time is short so the art often suffers.

I believe that the best service a machine gives us, any machine, is the time it saves for hand work. More and more hand work is going to become rare and accordingly precious. Handwriting will be no exception. We can use the machine to save time and eye sight for the art of handwriting, an art which is sadly in disrepute these days.

## In the Long Ago

From The Register Files  
14 Years Ago Today

OCTOBER 28, 1918

Walter L. Moore, who has been in the mill and grain business in Santa Ana for 27 years, announced his intention of retiring at an early date. His store room at Fourth and Broadway was being offered for rent.

The Irvine Walnut Association packing house was putting out 30 tons of nuts a day, according to the manager, Parke Ash. Fifteen men and an equal number of women were employed. Two cars shipped by the association on the previous Monday, had tested 98 per cent, considered an unusually fine showing.

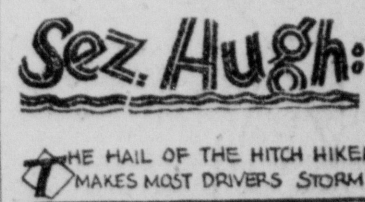

Edward F. Allender was visiting in the home of his parents, Mr. and Mrs. George T. Allender, having just returned from his three years' enlistment in the navy, with half of the time spent in the war zone. He had made a dozen trips to Europe, his vessel acting generally as convoy for merchant ships and troop ships. A few months before his return he had met his brother, Sidney Allender, and Oscar Carruthers, in Brooklyn. Both were in naval service.

### AUSTRIA URGES PEACE

On Oct. 28, 1918, Austria-Hungary dispatched another note to President Wilson, urgently asking that peace negotiations be entered into without awaiting the outcome of exchanges with Germany.

The government at Vienna conceded all rights asked for the Czechoslovaks and Jugoslavs, and asked that the president launch overtures with the Allied governments with a view of halting hostilities on all Austro-Hungarian fronts immediately.
